CLAYT GAMING 2024 SECRET JOURNAL

Made by ClayT Gaming 2024

I put all my thoughts into this.

I had a dream that was creepy it starts with me finding a USB that I plug into a computer then when it shows up bowser castle shows up and instead of mario its purple guy I keep playing it get creepier as I play at the end I delete the world and a black screen shows up and springlock bonnie slowly fades away and that's where it ends. The second thing I would put I a book is my memory of my friend Alexander Goodrich I met him when I went to malden school he was my first friend and he was 2 days older than me I started getting homeschooled and stopped seeing him I haven't seen him since his birthday on March 7th 2024 I would never forget him. One of the things I have is a small spongebob plush. I got it when I was born and still have it today. It was my first stuffed animal and I could never give it away. I had a choice between it and a big one. I chose it and have it today. One of the things I like is Five Nights At Freddys is a horror game where you play as a security guard and have to keep them out of the office you have cameras and 2 doors to keep them out you have limited electricity and if you run out you will be jumpscare by Freddy Fazbear. I had a friend named Tatum. He lived on the street before I moved. I haven't seen him since covid 19. I have a memory of him accidentally throwing his lunch box on the roof and asking me and Alexander to throw ours up there and hit it down. I play a game called Minecraft it is a game made only of squares you have to survive the day and nights if you use creative mode you don't have to survive you can get unlimited blocks and items in creative inventory I was going to be a youtuber called Minecraft Clay but I changed it to ClayT Gaming. One of the best things I have learned is to be yourself and do what you want to do in life. I'm writing this in 2024 so during this time gravity falls a disney channel show is continuing with the book of bill it shows what happened after the show I actually like gravity falls it also had a website that gives more lore and finally it has a phone number that doesn't give any lore. A thing I like is Sonic the Hedgehog the main characters are sonic a hedgehog that is the fastest tails a fox that can fly knuckles an echidna that is the strongest and eggman a person who is smart and tries to catch sonic with robots the third movie comes in 2 months and I am going to see it because it has Shadow the Hedgehog. A thing I used to play was Angry Birds it is a game with flightless birds launched in a net and hit green pigs to win. Something I thought I was the only one who liked was Yo-Kai Watch turns out Alexander Goodrich liked it too. I just heard the Angry Birds movie 3 is coming out I am probably going to see it when it comes out 😁😁😁. Spongebob Squarepants is having an episode I have been wanting to watch Creep Away Kamp it shows what happened to Kamp Koral It comes out on October 10 2024. Boom Sonic the Hedgehog 3 comes out this year in December. I was on the bus going home and remembered Alexander Goodrich I really miss him he was my Favorite friend😢. Some things change but friend never go away fully you will remember them in your heart❤️. I have new friend colton, Braxton, and brent I know their names I am glad to have new friends. I had fun today at school or call it Risco high school. I have a toy story woody in my room it is weird when its battery is low. I made an essay in english class I used a lot of heart in making it because I used my memory of friends and when I was with them I didn't put the name because you can't put you or your friends names on there or identifying information in it I still had fun making it mostly because I miss my friends in malden school like Ethan, Alexander goodrich, Carmen kimball, and tatum They were good friends there was another friend I can't remember his name but he had a journal 3 book from gravity falls. Just figured out I have to write it again because I got off topic. It is gonna be hard. I want to give up on the essay. I can't think of anything I might give up. Here This is the Essay. So making an essay in school is harder than I thought. Found

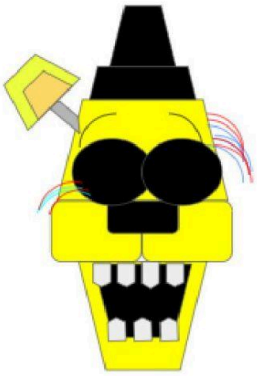
out I need 30 cents So I can't use the vending machine. I am working on my history project on Freedom Summer. I want to go home and play my nintendo switch mostly I want to play Disney Speedstorm. If I play it today it would be the 6th day playing it. I am in history class and it is 12:31 it is really boring right now and want to play my nintendo switch 😕. I have 2 more classes after the one I´m in now and am really bored right now. I am in english now and got done making another whole essay Press this link for essay

I just got done I actually only have this class and math it's friday so I get to play my nintendo switch and the Minecraft movie was announced not that long ago 🤯🤯🤯🤯🤯. Having fun today I have math class and then got to get on the bus to go home after english class 😃🥳. I am going to watch goosebumps 2 tomorrow on freeform. It's a channel on dish that is owned by walt disney 😀. I am thinking about an episode of spongebob coming out on the 10th it is called creep away camp it is making me think about Kamp Koral 😃. Wow I checked how many words are on here so far it's 1046 words. I mostly write on this at school. I actually want to see Sonic the Hedgehog movie 3. It comes out in 2 months. I am mostly watching Spongebob Squarepants or Henry Danger at home. I mostly am thinking about making a youtube channel called ClayT Gaming it's description is “hi I am ClayT I like to make videos of me playing video games mostly minecraft if I find a screen recorder and posting them on youtube” I still have a lot to think about for the channel if I make it I don’t know if I am it's also October 4th 2024 and I am having a lot of fun + my mom is making a halloween party this month. I saw braxton he had a popcorn bucket that actually looks like a robot I saw him in the morning in the hallway I thought it was a robot at first 🤖. I am having a lot of fun. I brought my Sonic the hedgehog hat I forgot to bring 2 days ago. I have a google slide of things that make me laugh But I deleted the slide. I might not write any more today if I might do more I don’t know I know if I can I’ll do it Monday have fun I’ll write more soon oh before I go I posted this funny image on google classroom I am having a lot of fun today 🤣🤣🤣 also Have a great day. Its Monday and I want to go to gym I also am waiting for minecraft bedrock to get the 1.22 update because I use a nintendo switch the update is only on java right now so I am waiting for the update to come to bedrock so I can get the creaking mob it's a new mob coming with 1.22. I thought of the Disney speed storm. I unlocked a new character yesterday. It was Mike Wasaoski from Monsters Inc, a disney movie. I also made my own Minecraft skin in Character creator. It looks really good. When I get home I am going to watch tv I am waiting for Spongebob creepaway camp to come out it comes out in 3 days I really want to see it because I want to see what happened to Kamp Koral the camp was still a camp while spongebob was a kid then it goes to the Patrick star show in the timeline during Patrick star show Spongebob takes his first drivers test then it comes to the first show so I want to see what happened to Kamp Koral in the first show the new episode give an answer plus its a halloween special 😱😱😱. I am ready to go to Gym because it’s Monday and we play basketball, dodgeball, kickball, or football and we only do it on Monday and Thursday 😁. I am getting bored. It is 10:16 and I am in jag and gym is the next class. I just changed my profile picture to Spongebob it was originally a funny looking Sonic the Hedgehog plush head it makes me laugh when I look at it 🤣. I actually want to be a youtuber if you want to watch youtube press here. It's my favorite website. This is me. I just took this photo and the computer I’m using is lagging a lot. I also shortened my last name to T so I put ClayT. I mostly want to watch tv at home. I mostly watch Spongebob or Henry Danger. I mostly am waiting for Minecraft 1.22 to come out on the Bedrock edition. They already added it to the Java edition but they didn’t add it

to the Bedrock edition which means I can't play with the new features. I found an image with millions of spongebob designs over the years. I was confused. I changed my logo and both are the same? I think I am going to play Minecraft or watch YouTube today. It's Friday. I am thinking about making a new Minecraft world because I don't have a survival world. Made my own YouTube channel yesterday but forgot the account numbers and have to wait to put my account on google classroom tomorrow or longer. I don´t know but I have not made a single video yet 😁. My YouTube channel name is ClayT and I was originally going to put Minecraft Clay but ClayT sounded better 🤔 thinking if I should change it again? I also watched the Kamp Koral Halloween special. It turns out Mr. Krabs just shut the camp down. Found a pen today. I don't know what to say about it though. I am trying to think of what I am going to do when I get home so I'm trying to think of what I am going to do. I am bored and want to go home right now. I am thinking about how I am going to get achievements in minecraft. I used my old dream instead of using my Fnaf Movie as a scary story plus I couldn't use Fnaf Movie. I remade the dream I had into a whole new story - FNAF stuff. I finally made a youtube channel. Here is the link for my YouTube Channel. I am trying to find ideas for videos. All I have right now is after hours a song I got off of YouTube and an image and made it into a video. It is my first main video on YouTube. I finally used a secret i kept mostly my whole life in my work in typing it includes me having dreams that actually came true in the Future if you're reading this DO NOT TELL ANYBODY it's my secret that i can not tell anybody cause they will not believe me and people will think I am crazy just understand this is real and it happened to me I will be sending this to my email on my computer as a copy and remember DO NOT TELL ANYBODY but before I go this video helped me a lot so please watch it Here is the video Remember DO NOT TELL ANYBODY if you tell anybody they will think I am crazy just remember this all happened to me and I have to keep it a secret as long as I can. I started thinking about my friend Alexander Goodrich again and some memories of us having fun together including Yo-Kai Watch I miss him a lot one of my memories is us playing Yo-Kai Watch 2 together how we traded a lot of Yo Kai like Hovernyan I miss him a lot and I am trying to keep myself from crying I am done writing for now I will write more later. I am thinking about making a video about the video I mentioned yesterday and about my secret about me having a dream and it happening and me thinking hey haven't I done this before If i do I am probably putting it as a private video and give the code to people I want to watch it so people do not think I am crazy I will write more later. I am thinking about Gravity Falls because I watched a video about the Book of Bill and did not see that there could be another show or there could be a movie. Gravity Falls is not over so could it be possible 🤔. Can you read this? [redacted] if you can send me a message on what it is and do not edit the text. I am thinking about making a video in private and making a video about trying to find the password and give clues in the video. This could be awesome for my channel so more people could Subscribe. I like FNAF and I just heard that there is a new game coming called Secret of the Mimic and I am going to find out more about it and I also learned it takes place before any FNAF timeline it is going to Awesome and I am going to have fun 😁😁😁. I have played Minecraft since I started playing games. It was my first game on Xbox 360 and I still play it today.

Hey can you decipher the color cipher here Tell me what it is if you do not know, look on my YouTube and the first part here is a decipher Color Cipher also look for a secret message website somewhere from my color cipher to right here I like Gravity Falls

I will write more later. I am thinking about Gravity falls how did Bill Cipher survive the Theroprism and look at the other characters in there there is the smile dip dog from the first season and he is called the beast that made me think when I saw it and I thought of it on my own still a little weird right anyways I am thinking about making more YouTube videos but I can't until I get a computer or phone so it might be a while. Tried to make Golden Freddy from FNAF on google slides using shapes and changing the colors turns out I did good it look really good



here is a image It looks good right? It was so good that I might do a lot more Characters it might go well or it could look stupid again. Do you ever think about a movie or show that you watched that ended and never got remade or showed up again? One of those is Yo-Kai Watch. I miss watching it a lot and wish they remade it at least. Gravity Falls is not over at all, it has just begun. Its 111/8/24 and I have got a journal to use most pages are not important some are important but I think the best is these 2  I think I did the best on this one because it has a whole lot of research the others are just drawings tiny pieces of lore some history work cause I did´t want to rip them out some websites then the best ones a whole lot of lore with a whole lot of research so I am doing better and better so this journal is going to be good when I am done with it I might post the whole journal on YouTube as a video cause I think this could be a good idea but I am going to wait a while before doing it I want at least 20 videos before I do I only have 2 videos that is mostly all I have done so far I will write more later I think I finished my History Freedom Summer project I am not sure yet but I

think I did and if I did it was a long time and I tried as hard as I could and I am finally done for now at least. I have found something in my Emails Don't know who sent it it was on YouTube so I clicked on it it was a Gravity Falls thing the last episode remade realistic animation it was also in Black and White I just ignored that part it had a New version of the song Bill Cipher sing We'll meet again it was really good looking whoever made it is good at animating. I found a good picture of Bill Cipher from gravity falls here it is

oh and here is the book of Bill deleted 
 They look good, right? I took the ones I liked the best in the files of the wallpapers and put them here. I like these. They are the best ones I have on you should download these here 5 STARS 👍👍👍👍👍. OK I had a good idea for YouTube yesterday it was to make a Fan made Gravity Falls thing I got 2 pages in my book for ideas for it I put 202? The 4th number is not made yet 😯😯😯 this is going to be the start of my YouTube channel getting better at videos this is the start of my channel not making new videos until I make this one. I am having a lot of FUN. I made a google slide thing so everything non school or a copy of something I wrote at school to put on 😁😁😁😁😁😁. I have an idea for my YouTube channel after Christmas I am going to do a treasure hunt it is going to end here at Risco high school here is an emoji list for how I made it have fun 🖊️>📃>🏠>🏫>📲>🌐>🛑>🤳>🔎>🏫>📕+🤐📃>🎉 it is going to be posted in 2025 when I get my tablet for Christmas it's going to be epic in the video I am going to give clues like it is in Missouri and my locker is 123 and to only get the things on the top of the locker it's going to be

Here is the link to my YouTube channel please like and subscribe and see you soon before I go. Three of the youtubers I am sending it to are MrBeast, Eystreem, and DanTDM. Have fun. I am trying to find the best thing to do for my channel. I am getting a tablet for Christmas. I am going to use it for YouTube. I am thinking about my friend Alexander Goodrich and started remembering his cousin David just today 11/22/24. Well when the 1st Murder Drones episode came out I watched it the day it came out now here we are Christmas 2024 I still like it and watched every episode and the last episode Absolute End of Episode 8 has released and I like it but now Murder Drones has ended I liked it and Always will like it here is a drawing good right. Oh my gosh my favorite show I thought was gone Forever Parker Plays well on YouTube Parker Coppins made a video on his channel Parker Reacts called Remember Parker Plays 3 months ago it is 12/6/2024 in the video he's watching clips from every episode and talking about how he made every episode I miss watching the show and hope to see it some more 😃❤️🥹 Also Treasure Hunt for 2025 is Canceled sorry but good news for my channel when I get my Tablet for Christmas in 2024 I am going to post 2 videos on my 2 Journals that is going to release on my Birthday of 2025 and before that after I get my tablet for Christmas I will post a lot of songs and videos of me Reacting to things I like one of them is Murder Drones episodes 1-8 🤖🪐❤️💀 it is going to be good to have more videos so Like and Subscribe to my Channel and Glitch productions the ones who made Murder Drones so all the new things I said are coming soon so watch for some videos 😁. I thought about something. I would not be a YouTuber if Parker Coppins had not made Parker Plays on Disney XD and I might see if I can call him and see if he can send me an ad to put on my channel telling viewers to Subscribe to his channel. Why I want to do that is he is the reason the channel is a thing but that is all for now Merry Christmas 🎄🎁. I just got Merry Christmas from ClayT Google classroom right now. I hope you have fun. It is 12/6/24 and I am having a lot of fun. I am changing my icon on Youtube To this The reason I am changing it is because I like this and I can't remake it so YouTube icons hope everybody likes it because I drew it. It is also based on a murder drones Character. **~~Hey What do you think about some old shows that come on all the time and then disappear out of nowhere and never come on again? (Parker Plays).~~** Have you watched Parker plays is an old show that used to come out on disney XD 3 years ago. I am 14 now and wish it would

come back again. I watched it every night that it came on and now I miss it a lot. **Look at Parker Reacts.** I hope you have fun (**It is 12/6/24 and 12:58 PM**🙂) have fun. **HAVE FUN AND PLEASE LIKE AND SUBSCRIBE TO PARKER PLAYS AND PLAY MINECRAFT. 12/9/24** I Brought my DSi to School and am using it as a camera for a second time but this time I brought my SD card to take more pictures and it has been good so far. **I AM READY TO GO HOME AND WATCH MURDER DRONES** it has ended but on the 12/25/24 I am starting on more videos to post on YouTube because I will have something to make videos on and post them that is why I have not made more videos yet but I am going to make more. As I played a new game on my **NINTENDO SWITCH IT IS FRAG 1V1.** The first thing I did was make a club, put my User name as ClayT Gaming 2024 and then started playing. Nobody has joined the club yet or 1 person has made it yesterday and I am at school 🤔. I made some more achievements on Minecraft and got more Character creator features. I also beat **NIGHT 1 IN FNAF 4** for the first time I got it 2 years ago but when I got Jumpscared it went to the **6:00 AM** cutscene. I am thinking how does that happen? **I AM READY TO PLAY FNAF 1, 2, 3, 4, 5, AND HELP WANTED ACTUALLY NOT HELP WANTED CAUSE IN HELP WANTED I GET SO SCARED THAT I AM GOING TO GET JUMPSCARED I GET OF THE LEVEL** 🤔😳. I am waiting for the 25th to come so I can release Journal 1 and 2. 1 video will release for 3 days after Christmas so there is the message with the **JOURNAL 1 AND 2** on the first day **JOURNAL 1** on the second day and **JOURNAL 2** on the third day and then some songs for last 2 days 🤯😃🥳 **IT'S COMING SOON** 💐💐💐. Some **CLUES** are **TRIANGLE 1 EYE 1 BOWTIE AND TOPHAT 1 MESSAGE 3 PLACES JOURNAL 1**, **JOURNAL 2**, and **BINDER** that holds Journal 2 Go and look for the message **COLOR SHOW'S THE PLACE FOR THE MESSAGE ON JOURNAL 1 PAGE. ARE YOU READY FOR THE JOURNALS AND ARE YOU READY FOR 2 SONGS? THE WHOLE THING STARTS ON 12/26/24 AND ENDS ON 12/31/24. GET READY**. If you want to know the theme for the journals here Journal 1 theme is Bill Cipher Journal 2 theme is Murder Drones Message has no theme. I am putting 1 more video that shows images I took on my DSi. If I can put them on a video but for now **MERRY CHRISTMAS FROM CLAYT GAMING 2024**🎁🎁🎁🎁🎁+🤐. One of the songs after the Journals is **BITE ME NIGHTCORE FROM MURDER DRONES** Last episode. Message is now going to be a trailer so 26 is not going to have anything it is going to be on **2024 12 25TH FOR THE JOURNAL 1 AND 2 TRAILER** is going to have a song and then 2 images of the Journals. 🔥**IT'S COMING**🔥. **MERRY CHRISTMAS HERE IS A LINK TO BITE ME FROM MURDER DRONES** https://www.youtube.com/watch?v=lNoUP579nQ8 **I HOPE YOU LIKE THE SONG. IT IS 12/12/24 AND I AM HAVING A LOT OF FUN. I LIKE MURDER DR💀NES IT IS A YOUTUBE SHOW MADE BY GLITCH ENTERTAINMENT AND THE MAIN CHARACTERS ARE UZI, N, AND J ALL THE CHARACTERS ARE ROBOTS IN THE TIMELINE FOR THE FIRST EPISODE AND AFTER THAT THE MAIN VILLAIN IS CYN AND J THERE IS ALSO MORE CHARACTERS LIKE DOLL BUT MURDER DRONES HAD A**

LOT OFF CHARACTERS AND THERE IS ALSO THE ABSOLUTE SOLVER FOR UZI, DOLL, AND CYN I MIGHT MAKE A REACTION VIDEO FOR MY YOUTUBE CHANNEL 😄. 12/13/24 I had a better Idea for my Journal 1 and 2 I am going to release Journal 1 on Alexanders Birthday so I can put Happy Birthday Alexander Goodrich on the video and the second Journal is released on my Birthday 2 days after Alexanders. I AM THINKING ABOUT THE PAST; IT FEELS LIKE IT IS GONE FOREVER. ONE THAT MADE ME FEEL LIKE THAT IS PARKER PLAYS AND PLAYER SELECT. I am ready for Christmas 2025 because

I have been waiting to see this movie. It is the second movie but other than that I am waiting to get my Tablet for Christmas so I can make more videos. ClayT Gaming 2024 is coming back soon with 📓 Journal 1 and 📓 Journal 2 get ready it is going to have ሐ⊓ϟ[]ɯϟ []ϟ⊙ʌɯ≀, ⊡ʌ♣⊡, and ⏚ɪ⊔⊔ ☊ɪ≠⊑ɯϟ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ☊⊙ሐɯ ⊡ɪʌ[] ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ ɪ⏀´ሐɯ

I used this image for my school account image It is N he a character in Murder Drones he is one of the nicest characters in the show he even encourages his enemies that are trying to kill him and he also does whatever it takes to protect his friends in the show I think that is a definition of a kind person 😀😀😀. (12:59) I am ready to go home it is Friday and I want to lay down and watch TV and listen to music. 12/13/24 (1:40) I had a good Idea for the journals because the trailer has the books covered with ink so I am putting names of people I know on the book in the trailer here is a cheCklisT

More Coming 2025 so get ready it's coming but before I go I hid a link to the Translator for language above on an Image go look for it. (12/16/24) Yesterday I did something I thought I would never do I played FNAF Help Wanted before yesterday I would get too scared 😨 and quit but I had to let Fortnite download Help Wanted you can play and it download so I played pushed past my fear and beat all of the Parts and service 🔧🤖 did Night 1 2 and 3 on FNAF 1 I am still doing night 4 but I and did Mangle vent repair I thought I could not do it but I did I pushed past my fear and played it 🤯😨 but that's not all I also heard there might be a season 2 of Murder Drones there might not but it could be anything 🤔🎄🤖❤️⚔️ but that's all for now

I will write more later I like to play games my first one was Minecraft and I still play it but FNAF was probably the only Horror game I play other than Hello Neighbor the thing I like about FNAF is that 1 game made by using Chuck E Cheese and ShowBiz Pizza Place and combining Animatronics to make a horror game that is one of the most popular horror games it is amazing it is actually the only Horror game I like and I like Everything about the game It is amazing how they made that type of thing ❤️+ 5🌟. I am ready to go home and watch TV either that or play my Nintendo Switch. If I play my Nintendo Switch it will probably be FNAF Help Wanted while I wait for Fortnite to update. I got better at playing FNAF Help Wanted a lot since I got it. I am starting to watch some channels on YouTube I haven't watched in a while I also have 9 days until I can start making videos on my tablet I am getting for Christmas I am thinking about the Journal 1 and 2 idea I want a Trailer but don't know what to make it though I also am going to make a free phone number using an app too 🎮 💡📹🔒 It's going to start soon in 12/25/24 /- 1/31/25. I made this in Google Slides. It is 12/17/24 and I am ready to go home and watch the Amazing Digital Circus and Muder Drones but I also have Tutoring which means I have to stay at school longer. Remember Jackson from Malden. I started remembering the name of one of my friends from Malden School Jackson He was the friend from the time Tatum threw his lunch box on the roof and he asked me and Alexander Goodrich to throw our lunchboxes to get his down well he also asked Jackson to throw his up there and he said no but tatum got his and started running with his lunch box and Jackson started chasing after him but he didn't throw it up there. I forgot Jackson's name for 2 to 3 years until today I was thinking what his name was and then I thought Jackson that's how I remembered his name. I played a Minecraft online game that is not made by mojang and I was playing with other people and it was at school I put in the chat I was a YouTuber and some extra things. 12/18/24 They were giving away things for free at school so I got my Mom a phone case and my Dad and Mom a glass sled thing I got my sister a Guess Who board Game and got me an Rattlesnake Jake board game so I got everyone except my dog Maggie something because they didn't have anything I could get the dog. It is 1/9/25 I forgot my password for my first YouTube Channel so I had to make a new one but I still used ClayT Gaming 2024. I am using the channel for as long as I can and I have made 38 Videos so far so here is a link for my Channel (Click Here) look for Future.MP4 by ClayT Gaming 2024 new channel here is a link (Click Here) and made a ton of videos. I deleted all comments in google classroom then I added my Youtube channel link and made the image smaller so I only have 1 comment posted for now 1/13/25. I decided to post every Murder Drones video then do ClayT's Journal 2 but I only got parts 1, 2, 3, and 8. I am ready for December to come because I want to see FNAF 2. It is supposed to be scarier and I

like FNAF a lot. Here is an image of both of my Journals

Journal 2 is coming this year.

Here is a link to ClayT's Journal 2 trailer (Click Here) I have 44 videos 1/13/25 (12:59). 1/14/25 I am ready for the 17th because Henry Danger the Movie comes out.1/15/25 I got done with a history assignment fast because I was writing as fast as I could and talked to my friend about old shows and how it feels like everything that was on Disney XD is gone now like Parker Plays or Player Select I wish I could see those shows again 😞 other than that I have been waiting to go home and watch YouTube sorry thought of FNAF I want to see the second movie when it comes out in December. KAHOOT

. 
It is 1/16/25 and my Mom and Dad are not going to be home today. My aunt Sandy is picking me and my sister up because my Mom and Dad went to a Funeral so I thought about taking a video of the outside of the Abandoned House on the street my house is on. Gim Kit I made a FNAF map. It is 1/30/25 I am at school and it is raining outside I am also waiting to go home and make videos or watch tv and have fun I am really bored right now and can't think of anything to do right now I will type more later 😀🤔🌟 I also thought of some things I need for my Journal 3 show here is a list Dark Web, Better Story, and Longer Episodes. Another thing I remembered

was that some time last week the history work had links. 3 of them did not work. I don't know why 🤔. I am moving all the stuff from my other google docs to this one.

I just made this wallpaper. I went online, downloaded the best images and took a screenshot and cropped the image. I wrote a story for English here. My voice in democracy is that everyone should be kind to each other. Everyone is different and is good at different things. Everyone is perfect the way they are and are good at something. If everyone was the same the world would be boring so that's something to think about. Some things are better than others but that's what makes life possible.During this time I think everyone should be kind to each other. Friends help you feel better when your sad and I think Fighting should never happen because everyone is different that what makes it better and awesome. The world should be better than it is. Everyone is unique if everyone was the same the world would be a worse place because everyone is different it is a good place and if we work together we can do anything no matter what it is

The world is a unique place but fighting is not a good thing to do I think everyone should work together like a team. The world is a good place recycling is a way to keep it that way. Recycling is the only way to keep the world clean. There is only one planet and we should take care of it. The best lesson in life is to be yourself and not let people tell you what to do in life. Everyone is unique and should do what makes them happy and if people work together it will be a better place all you have to do is work together. If we work together the world will be a better place. If someone tells you what to do, just ignore them and do what you want to do.

If you work to do something you have a better chance of getting to do it everyone is special the way they are and should not care what people think of them the world is the best thing if everyone works together and you will do better at everything so people should stop fighting and start working together no matter what happens because that's the right thing to do.

Another thing is extra good friends help you no matter what it is. Friends help each other and never lie but even when there are bumps in the road they get back together because friends are friends from the day you met them to the end. I made a horror story here . **I went to the store and bought a woody character from Toy Story. at night after I got it I heard something move in the cabinet that connects my pantry and my closet I went to look and it was gone. I ignored it and went to bed in the morning I looked and it was there so I put it upstairs. at night I heard the voice box and went to look and it was gone. so I went looking for it I could not find it so I went back to bed. after that I went to look if the woody doll was there it still wasn't there confused I went and ignored it. After that it was peaceful for a few days. A week after it went missing I heard it again. When I heard it I went to look. It wasn't there but it's hat was. I took the hat and put it in the closet.**

The night after that I went to look for the doll I saw heinous upstairs so I looked. After I looked the woody doll wasn't there but instead it was a buzz lightyear I

**put it in my closet and ignored it. Night after night I heard something upstairs and looked and didn't see anything. the day after I found the buzz lightyear I heard something in the closet and checked. When I checked I heard something upstairs looked and didn't see anything. Then I heard something down stairs and looked at it. The buzz lightyear was gone.Every night I would check and not find anything. When I checked the next day I heard the window open I checked it was open but nothing was inside. When I looked again something moved I followed but lost it again. Night after night it would make noise. The next night I woke up and heard the woody doll exued. I went up to check the buzz lightyear was there but there wasn't any woody doll. The next night I heard the door open and checked. Something was buried in the yard I was digging and found petrify Buzz lightyear. The night after I heard something go out the window. I followed it and it went into the second shed. I went into the shed and heard a cackle. I looked around there it was it was the woody doll. I saw it move but it got away. The next night I found it and then put it in a box and threw it away. The next night It was standing at the stairway. I saw it and it quickly moved away. I followed and followed it kept going it was fast. When I got up there it was inside the closet.I opened the closet and found an buzz lightyear that was worn out and it was in the corner and ran away. I went to look where it went but it disappeared the next night I saw it in the closet it kept getting away though. When I went to look I found it upstairs I got it and locked it in a box and threw it away again. The next night it was outside my door way and I chased it I got it and threw it away when it came back I knew something ominous was happening. I chased after it I got exhausted of chasing and it got away. It started feeling eerie and it felt morbid and did not like it. I kept looking and looking it kept getting away I caught it at one point after I caught it I decided to burn it. The next night the buzz lightyear was back and I got rid of it immediately. After I got rid of it I saw something in the hallway and went to check but nothing was there I got scared and alchemy it away and I never saw it again. I got peace after that and then I went to the store and bought a dvd. But I saw it again and it was just there and disappeared so I just went and ignored it and never happened again and then it ended and never saw it again🤯 this is the only good one I made at all. And I had fun making it. It was the only thing I could think of. I made the story as good as I could and I will never make another one easy either.🎃🎃🎃

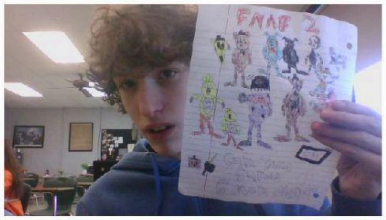
The best part of Christmas is being with family because being with family and friends helps you feel better and can make memories that can last a long time.Sometimes you also have to wait for a movie that comes out on Christmas. It's a good thing because you can watch it mostly because of a movie that is coming out this year. I am ready for Christmas because I have been waiting for a while. I mostly like the decorations that are put out and I also like it when it snows even though it does not do it every year. Sometimes some old episodes of some shows come on again that do not come on a lot.I like to drink hot chocolate and I only get it on christmas. Another thing that makes it my favorite holiday is all the snacks they have. The 2nd best thing about Christmas is the movies that come on TV that you don't get to watch any other time of the year unless you have it on DVD. Another thing about Christmas is the presents that you get. I already know what I am getting is a tablet. The decorations are mostly set out on Christmas. I like the decorations that are set out a lot.When I think about Christmas I think about being with family and friends. One of the things that are during Christmas is Christmas Parties. I have a party every Halloween and Christmas. Some of my friends come during the Christmas parties. I think you can't have Christmas without Family and friends. Another thing that makes Christmas my Favorite holiday is the new games and movies that come out. The thing I like to do the most is to play games and I want it to be christmas already for a new Minecraft Update. One thing that makes Christmas the best holiday is the movies and shows that only show on Christmas. The main part of Christmas is being with family and friends and a way to do that is having movie nights. For me movie nights don't happen a lot but mostly when it does happen it is on Christmas. Christmas is about being with Family and Friends and having fun together. One way to spend time with Family and friends is to watch a movie for movie night or play video games. Another way is to play in the snow and have snowball fights. Nomatter what Happens Christmas is about being with Family and friends. The day I met my friend Alexander Goodrich was the best day of my life. I moved to Malden and went to school in 3rd grade. Alexander was my first friend at school. Before I met him I liked yo kai watches. I thought I was the only one who liked it. Alexander was born 2 days before me. The last time I saw him was on his birthday. One time I went to McDonalds. They had a yo kai watch I gave him. I always think of him on the bus.Yo kai watch ended in 2023. I got a movie and the 1st season on dvd. Me and

Alexander both liked yo kai watches. I had 2ds. It had yo kai watch 2 . He had another version of it.Alexander and I played minecraft together. At one point I got home schooled.I stopped seeing him. I went to his birthday party. I moved to Risco high school and haven't seen him since.Alexander had yo kai watch 2 fleshy souls. I had yo kai watch 2 bony spirits. We played together and I traded some yo kai. I traded him for a hovernyan. I miss him every day.I also had some more friends one that I haven't seen since covid 19 his name was tatum all I can remember is that he got his lunch box stuck on the roof during recess he asked alex me and someone I forgot the name of to throw our lunchboxes to get it down the school got it down after a year.One friend was ethan I don't know his last name he had a youtube channel after a few months of not seeing him I couldn't find his channel I talked to him in music class he was a good friend.My last friend was carmen I only see her during halloween parties at home.I miss all my friends in malden but I'm glad to have new friends here in Risco. I just got done posting all my other documents on this one so I can delete the old slides so there is not as much anymore 🌟🌟🌟🌟🌟 it is last thing I am writing of 1/30/25. It's 1/31/25 and I tried making another character with shapes and named the slide UnKnOwN EnTiTy the name of my shows 3rd

Episode on YouTube here is am image of the slide Did not do good I think I made it look terrible instead of good 😐 yeah I might do a video making these but might stick with FNAF because I can do better with it than Sonic the Hedgehog. I also still haven't seen my friend Alexander Goodrich since last year on our birthdays 3/7/24 to be exact I really miss him and I also remembered another friends name Remmie I think he was the smartest one in my class when I went to malden he would also wear glasses and was really nice but I mostly just talked to him during the time I went to malden school so I don't have a good memory with him I can remember but he was still my friend 🙂 I wish I could still see all

my other friends If I could I could find Ethans YouTube channel even though I have one he was a good friend and I haven't seen him since I went to malden school. There was also a homecoming thing at school yesterday I did not go but still it made me think about the show Murder Drones episode 3

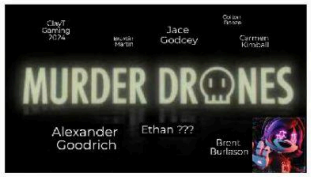
Since it took place at a prom in one scene I have fun watching TV and Making YouTube videos at home most of the time but I still have new friends like Brent Burlason. He was really nice and my first friend going to school but Braxton was my first friend in Summer School. I also am glad to have good friends even though I can't see my old friends anymore like Alexander but it doesn't mean you won't see them again… Right… Right, I just really miss my old friends a lot. I just checked and I only have 6 Subscribers on YouTube but I don't care I am still going to make videos on my tablet as much as I can 😁😬 Still might take a while I don't have my tablet my Mom took it. I am trying Spongebob Patty crisis. It is a game where you throw food at customers. Yeah I just gave up. It is hard to aim. It does not hit them easily. I threw perfectly but it went past it HARD I IS HARD. I used a Booklet and Used an invisible name Laughing my head off cause I don't have a name. I drew FNAF 1 2 and 3 the random 



good right posting them to YouTube. It's 2/4/25 and I started to remember another friend from Malden Journey. I remembered his name. I also made a script for my Journal 3 show the 4th episode is going to be called Shattered Memories. Here I will write it. *Starts with FNAF Drawing then cuts to black. Cuts to flashback of the UnKnOwN EnTiTy showing it being bought on the Dark Web goes to Present day I am listening to some songs on my TV and find the Dragon in my dresser and take it out and put it on my shelf It's the next day I'm making a YouTube video playing FNAF 1 and hear something outside my window and check but there is nothing there I ignore it and continue playing lights go off episode ends end credits play the Reveals FNAF trailer logo for next video the intro has my channel logo and the words Shattered Memories fade In then out videos starts but before I make a secret message flash on screen really fast it is "the UnKnOwN EnTiTy is dead."* also shows my channel logo but a good script to me also started thinking I should add a memory of me watching Parker Plays from Disney XD in the episode so I guess I have a good start on the Episode that's it though so I need to think of more for the script then start filming but before I go I am adding Muder Drones show to the script I really like the show and am posting Episode 8 trailer too I really liked it but that all so get ready I remembered the furby then Remembered Tattletail during Parker Plays one just wanted to add that to todays addition goodnight and get ready for more here is a link to my YouTube Channel 😉 please like and Subscribe https://www.youtube.com/channel/UCkfnqMxTKvNYdDFBMKDLz2w it is the end of 2/4/25 see you soon but before I go I missed every question on my math test did not do good 😢. It is 2/5/25 and I am ready to go home I mostly want to watch YouTube and I want to listen to FNAF songs but a YouTuber I watch had a new video talking about something that happened in her life that felt like a horror movie then I went and found a video about someone reacting to Spongebob

Plankton movie trailer I am ready to make more videos for my channel the main thing though is that there is not anything interesting going on today I mostly am getting really bored I wish I could go home and watch Murder Drones or FNAF songs I also thought about my friend Alexander Goodrich then I remembered Journey he was a friend in Malden school actually forgot about him but still I remembered him I also want to go Play Angry Birds and Minecraft but I can't I am at school and I thought about a Fortnite Collab what I would do would be give them the skin and they would put skin name as CTG 24 and description of the skin would be ClayT Gaming 2024 from YouTube and I would use a emote and a Pipe Pickaxe cool right 🤔😎 but thats not all I would secretly give them a boss idea off of my Journal 3 show the dragon called UnKnOwN EnTiTy because well it would fit the japan style chapter🔥🔥🔥🔥🔥.

I also am posting Murder Drones trailer for episode 8 on my YouTube Channel. Changed my wallpaper to this



cool right Made the last one editing.

sorry I played Minecraft at School and wanted to take a screenshot yesterday. 2/6/25 I also made a FNAF drawing here is an image

 I did good right I think I did good also made a new logo  I made it the second I started writing about it but it looks good to me 😁 Do you think it looks good? I watched one of my favorite YouTubers, Robowski. He was playing Poppy Playtime Chapter 4 and it was 2 hours and 30 mins long. Right now I am doing a history paper

and got 4 first but I rerolled because I drew a picture and I got Samuel Slater. I also drew a Cotton Gin because I got 3. I used an image for help. It looked like it but didn´t at the same time after I drew it I have been thinking about making more videos one of them being I have to draw something when I get it on a wheel of ideas on a website here is a link (press_here) I am ready to get back to making YouTube Videos 😁 but I also just got 9 Subscribers 😁 and then I have to go to school which means I can't make videos 😑 yeah not good it's been 2 weeks might take a while I also checked I have 9444 words on this google docs I am getting bored at home so it might be a while >:} Have FUN. It is still 2/6/25 and I am putting google slides on here I put this one on the google slide named YouTube

[redacted] I am writing more now also I put ☠️Drones_1pilot so I can copy and paste for Yahoo and Blooket at school also I put plo əqn⊥noʎ ㄣ〓0〓 ƃuiɯɐɯ ⊥ʎɐlƆUpside down on it too

I also put

[redacted]

[redacted]

[redacted]

[redacted]

[redacted] and ClayT Gaming 2024's YouTube

again

I made a link to journals slide here is the links https://www.youtube.com/watch?v=Iav3nTNU9qY and https://www.youtube.com/watch?v=bugZg1Faklo that that's all my slide except for 1 that's all for 2/6/25 Have FUN. it's 2/7/25 and I have been getting a headache all day but I also have been thinking about Alexander Goodrich. I haven't seen him for a year on his birthday in 2024 or 3/7/24 it is 1 month till his birthday and I feel like I am never going to see him again and that makes me want to cry but I also made a Discord server here is an link (press here) for video and (press here) for Discord server join link here is a link image if it works  if you see this it works also why I made it was for YouTube channel discord but I added it to Google classroom so my friends can use it but it is for viewers and friends both I also have been thinking about Alexanders and my Birthdays so I had an Idea to give him my YouTube channel password and account so he can help making videos but I might not see him but I hope I do I

also made an update to my other wallpaper here it is 
it has more names on it but I might still add more because I didn't add all my friends names 😀 I will write more later. Its 2/10/25 and I made 3 more videos + I have watched Parker Plays Season 1 on YouTube it was on a channel with Hacker Gamer but with numbers but I am glad I could watch it again also a few weeks ago I heard that they were doing a prank with driving a motorcycle in the School and today it happened they put Cars in the walkway outside and then when you get to the highschool there was a motorcycle in the building I really like how they did it it was a little funny where I heard it was all of 8th grade was in jag with another grade and I heard them say what they were going to do but I was surprised they actually did it it was awesome other than that I thought of a dream I had in the past where I running lost Don't know where I am but the first part I run through it looked like it was the hallway to the weight room with the rack holding chairs but the only other thing I can remember is seeing Jester a YouTuber I used the watch in the dream but I realized all the things in the dream was Things that have been a big change in my life or stopped watching videos of so I think it is a message saying that everything changes and that nothing stays the same so that was my dream and to me I think about it and it feel like how much I have stoped seeing Alexander Goodrich it feels like he also goes into it because I used to see him all the time but now I never see him but I still really missed him enough of that I have posted 3 videos to my YouTube channel 1st one was Murder Drones episode 8 trailer 2nd one was…… Actually I forgot the second one but the 3rd one was Journal 3 Episode 4 Shattered memories trailer which I think that I did a better thumbnail I would post the image but it won´t show up it is one of thousands of videos with the same title but I am still making a logo for Journal 3 show on YouTube oh wait I found the video here is an image

Yeah I think I did better job at the thumbnail than I did in the past but I still need to make a story for journal 3 episode 4 because I need to add the UnKnOwN EnTiTy in it and need to add backstory to it but also Want to add some things from my past along with it so It isn't only one character but 2 I also made more pages in Journal 1 + 2 but then found more under my bed so when I get back on my tablet I need to make a video with I missed some details that were underneath my bed and show the pages and a little more since I forgot about the pages yeah I got more work to do between making Episode 4 of Journal 3 to making videos of canceled Ideas so it is going to be a while actually I might share this with some of my friends so they can read this to see if they like this even though it has some of my school work I also did noredink at english class here is an part I wrote each time + I always put I like (☠_Drones) as the name so here is Number 1

1.If I got in a situation like this I would still find an Abandoned house and still would probably ask Dally it seems like he would know more about what to do in that situation because the part of the story Ponyboy and Johnny killed the Socs which led them there so Yeah I think that would make sense to ask Dally he seems the smartest and Abandoned House part yeah there is a lot of abandoned houses in the world so that would make sense.

2.Was Johnny's violence in Chapter 4 justified?Write a paragraph explaining your answer. Support your opinion with evidence from the text.

2.Yes it started with the one that beat him up getting killed because the Socs was trying to Drown Ponyboy and that's what made him Kill the Socs so the Socs are the main villain in the

story and that is where it starts but they had a plan and went to Dally for help which went to them going to an abandoned Church and secretly using a train to get there It is a great story

3.**How does the author create suspense during the park scene in Chapter 4?**

Write a paragraph explaining your answer. Support your response with at least two pieces of evidence from the text.

3.he made it where the Socs tries to Drown Ponyboy and Johnny help Ponyboy survive by killing the Socs and Ponyboy said that he felt sick and that is the main thing yeah the Ponyboy feeling sick part yeah realistic when I cut my finger the other day when I looked at it it made me feel like I was going to throw up and the Socs trying to drown Ponyboy made a reason for Johnny to kill the Socs and saved Ponyboy.

Sorry I haven't done the last one for the Outsiders sorry.

It is 2/11/25 and they talked about tutoring in Malden school where I used to go and it reminded me of the time I went to tutoring in Malden with my friend Alexander Goodrich we had tutoring we started eating dinner at school which the only one I can remember was school pizza lunchables they were not good and good at the same time then we did Tutoring and had fun reminds me of how much fun me and Alexander Goodrich had he was the only one who I had a sleepover with he is the only one who has come to my house or me going to his house and we were only 2 days apart with Birthdays his is on 3/7/2010 and mine is 3/9/2010 I really miss Alex he was a good Friend I could never forget him ever in my life and that is something I really know because he was my best friend in my whole life even though I don't see him anymore he will always be in my memories but that's not all bad I mean I made new friends like Brent Burlason and Braxtin Martin they are good friends too and friends come and go and that makes possibilities for the future like for me being a YouTuber but the only thing that matters about

being friends with someone is that they will be there to help you when you feel sad and thats what a good friend is like so yeah friends might stop seeing each other but your still friends in your memories and your heart and thats what matters in life I mean Friends stand up for each other if there your friend it will be either stick together with friends or not at all I actually took that line for Murder Drones episode 8 because it feels like a good thing to add but what I am saying is that when your feel sad or alone just know that you have friends to help you along the way and if you do have friends thats what matters in life it is the main thing in life to have friends and make you a better person no matter what gets in your way and a way to know is that I have experienced it my life has completely changed I don´t see my friends in Malden at all but I made new friends and That's all that matters just remember that all you need is a friend and thats what makes you a best version of yourself I mean I like FNAF a lot I found something new called Poppy Playtime stopped watching FNAF things for a while but I still do watch FNAF stuff I have not forgot but nothings changed I still have friends and am still having fun so that all I wanted to write but before I go I am changed the title from ClayT's online Journal1 to ClayTs life story I will write more later 😢🙂❤️🥲🥹 Hope you enjoyed my speech about Friendship and how life changes. I finally made a Custom ClayT Gaming 2024 Minecraft skin here is the file I also got Powerful EnderMan skin too  cool right might use it for videos

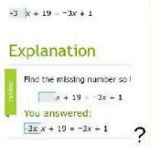
. It is 2/18/25 and I brought my Nintendo Switch to school but Yesterday I played Fortnite I had level 30 at first but I went and got to level 60 Using free battle pass items cause I don't have V-Bucks I got a lot of cosmetics and started liking to play Fortnite again I got a lot of images from playing but could not make videos I am playing on Nintendo Switch I was trying to get to level 72 but Couldn't get to it hope I can today because I need free V-Bucks 😁 I should make some Fortnite videos for YouTube But before I go there is a snow storm this week and I am going to be at home all week I am not going to school so more time to make videos maybe I also was playing got killed and the person who killed me sent a friend request I accepted and he said he was sorry for killing me and that he needed kills I think he was really nice. 2/25/24 I had an Idea: what if I send videos and images from my Nintendo switch to my tablet and put a lot together to make a 1 hour long video. I have Fortnite, Minecraft, and FNAF Help Wanted to make videos and images of so many more videos on YouTube I also have tutoring today and I secretly brought my Nintendo Switch to school and I want to make videos like the one I did today of me playing Minecraft setting a village that has a pillager outpost right by it on fire then set the Pillager outpost on fire then set the village on lava but it was time to go to class so when I get home I am putting lava all over the pillager outpost 🎮😎🧨 🏘️🔥🔥🔥🔥🔥🔥🔥🔥🔥🌋 it's an epic moment plus I am using commands to set me at maximum strength to kill every villager every iron golem and every pillager its insane and it's coming soon I used this image as what the heck because it looks confused and scared. I am laughing so hard right now it's epic so you don't want to miss it. I also played FNAF help Wanted and beat all but dark rooms and night terrors on easy modes. I made the funniest



mistake in math ? 2/26/25 I have been thinking about Murder Drones for since January 2025 I stopped watching it but today I might watch it a lot more this morning I watched Murder Drones episode 3 the one with prom fight thing actually my favorite song from the episode is knife dance it's technically get prommed but turned into a better song like a remix but it's in the same episode so not that much difference but I really liked it it is a really good song plus the newest video Murder Drones but wholesome is not that good to me it doesn't feel like a murder drones episode or anything but I hope they add more to the series a season 2 or another series because I really liked it and it was the best show I ever watched plus now I started to like a horror game called Poppy Playtime and they announced a movie in 2023 and the silence until this year february they announced they licenced Poppy playtime to legendary pictures to make the movie and surprisingly a TV series it is going to be really good plus Chapter 4 ending with Huggy Wuggy being alive in Chapter 1 we thought he died he fell down 1000 flights of stairs and everyone had theorys that he was still alive until chapter 4 ending where he is alive and the game ends with him bangging on the door and it ends teasing Chapter 5 game but Chapter 4 came out last month and they just started on chapter 5 so it is going to be a while but I have been having fun and had a lot to talk about but there is also some more on my tablet I got Angry Birds epic which was deleted off the playstore along with every other original just because they thought that it would get us to buy the newer games but it doesn´t matter because you can still get them off the internet so its not gone forever when I get home I am going to play my Nintendo Switch or Minecraft and watch TV and relax I also got better at FNAF Help Wanted because when I started playing it I got to scared to play now I beat all but Night terrors 2 3 and 4 along with Dark rooms 3 and 4 on easy mode but I did beat parts and service in hard mode all of them. It is the easiest in the game but I really want to go home and

watch TV. I will write more later there was a show I liked called Yo-Kai Watch it is still in japan but it was canceled in United States in 2023 I really liked it my friend Alexander liked it too he was the only one I knew who linked it we both had Yo-Kai Watch 2 I had Bony Spirits and he had Fleshy Souls but you can trade Yo Kai with it it was on 3ds and 2ds but we had fun at the time I had Yo-Kai Watch 1 too but lost it Yo-Kai Watch 2 is based on the movie I had it in DVD I also had Season 1 in DVD but now nothing new comes out but I also can't find Season 2 and 3 in english only other languages Season 2 and 3 came on Disney XD along with Parker Plays and Player Select now Disney XD is different and not as special as it was nothing interesting on the channel other than Gravity Falls I like Gravity Falls I wish they kept the show it was special to me but its gone like most other things it will probably never come back💔😢 most things from that time are gone like other things I like one being TMNT 2012 but have TMNT 2012 Whole series in DVD I will miss Yo-Kai Watch the main characters were Nate, Whisper, and Jibonyan in one episode jibonyan had another robot of him from the future called Robonyan could be used for another show I hope (Yo-Kai Watch 2012 - 2023) there was a lot of shows from the past on Disney XD like Lab Rats that never come on again but thats the end of writing for 2/26/25 I will write more later so writing more than I thought I got done with NoRedInk in english quick because I Type a lot faster now 15 word per second faster. In english my friend had to balance 2 books with his palms and colton said it was easy so he did it but with a book on his hand everybody was laughing 2/27/25 we went to a trade school for a tour mostly the only one I am interested in is electrician we had fun came back at 10:30 and went to music one part was that me and colton climbed onto one of the things you use to get up another part in electricity I mostly was distracted by the other ones in the class with something with 2 metal rods with electricity hitting together and they put a screwdriver in the middle and it went there it

looked really really good then we were there for 25 minutes I was playing Minecraft on my Nintendo Switch then going there on the bus and going back to Risco on the bus it was a lot of fun I also used A Minecraft Movie add on so I had the staff of dominance it shoots orb of dominance orbs and explodes I made it more destructive I put it to summon TNT until it exploded and used it in the end big destruction got through the whole middle and close to it on the rest of the map a lot of destruction a lot😎 but there was no internet so no YouTube 😑 so not fully good yeah not good. It is 2/28/25 and I found out that the Minecraft movie trailer on YouTube did not know yesterday it makes the movie look a lot better but thats not all this literally happened 2 Minutes ago it is 12:17 and my friend Braxtin Martin dropped his papers outside during the time I was going to History PS I am already there right now and I went along with Jacoby Hensley and got all the papers most went on the road but we both got all of them but 2 or 3 that went into the field the wind was blowing fast so yeah I helped my friend get his paper I also listened to Murder Drones music this morning mostly the main theme called Disassembly acquired it is the main theme of the whole series and it sounds really good I would rate it 🌟🌟🌟🌟🌟 I will write more later this is technically becoming a Diary. 3/4/25 I posted this on google classroom and now am putting everything on this here is some links to Murder Drones songs https://www.youtube.com/watch?v=9tMowVO8ESw&authuser=0 here is my discord https://discord.gg/hj6NHw2T8S?authuser=0 an editing link https://addtext.imageonline.co/?authuser=0 new YouTube channel https://www.youtube.com/channel/UCkfnqMxTKvNYdDFBMKDLz2w?authuser=0 old YouTube channel https://www.youtube.com/@ClayT-z4k?app=desktop&authuser=0 now some wallpapers and images

No the best thing you can do is help anyone plus he helped Ponyboy by them going to an Abandoned church. and when it caught on fire it was their fault but they saved the children from the fire and that's how he got in the hospital then he got hurt really bad and that's not a Downfall because the children and Ponyboy were saved from the fire so it is not a downfall and they won too thats one part the last words he said was for Ponyboy to stay Gold. and then he died but it is not a bad ending because the greasers won in the fight against the Socs the children were saved Dally and Ponyboy survived I think that's not a downfall even though its true nothing lasts forever it does not mean that it doesn't last a long time and the best thing you can do is help somebody who needs help so No I don't it led to his downfall because there was not a downfall another thing is that thing change a lot life can change completely and you can stop seeing friends but it does not mean you will not see them again that's what I think.

Quizlet Live 3/12/25 also I have been having fun tomorrow we have half day and then Friday we have no school at all but I can not make YouTube Videos thats the part I don´t also one time in some place me and my friend Alexander Goodrich were climbing this wall we got to the top went to the side in a secret wide empty space that you Can't see from the bottom I remembered this Yesterday but I really miss him I haven't seen him since our birthday and didn't see him this year yet either I wish I could see him but just as the saying I use a lot says Nothing lasts forever but it is not always true if your friends a real friend the Friendship will last forever even you you don't see them other than that I am trying to find Ideas For Journal 3 Episode 4 Shattered Memories show on YouTube ideas I thought of Dark Web and Backstory for the show and me remaking my memories in real life if possible but adding more that didn't happen to make the story better I will write more later 😀 I wish I could see Alexander Goodrich 😞💔 Shattered Memories should come out between 2026 and 2027 full murder drones (click here).unblocked games Sonic1 but its shadow https://www.allsonicgames.net/shadow-the-hedgehog.php so I went to the cutting room floor website and looked at FNAF games files here is some files Jumpscare_WS Animations

Played Kahoot at school used  . 3/19/25 I am writing my Jag essay right now. I THINK THAT THE MAIN THING THAT GOT MY ATTENTION WAS TO THINK WIN WIN. I THINK THAT IS THE BEST ONE BECAUSE IF THAT WAS NOT A THING THERE WOULD PROBABLY BE A LOT MORE WARS. TO SOLVE PROBLEMS YOU NEED TO THINK WIN WIN LOT. THE MAIN POINT IS THAT IF YOU HAVE A TEAM TO MAKE IT WHERE YOU STILL HAVE A TEAM IS TO THINK WIN WIN. THE BEST THING YOU CAN DO IS TO FIND A WAY TO AGREE WITH SOMEONE.

FOR THINKING WIN WIN I DO THAT A LOT IN GAMES MOSTLY ON GAMES LIKE FORTNITE. IN FORTNITE I PLAY WITH SOMEONE ON ALL TYPES OF MAPS I WAS PLANNING ON A FNAF MAP BUT NEEDED XP POINTS IN FORTNITE. SO I PLAYED BATTLE ROYAL WITH ABLESCALES79?? I FORGOT 2 NUMBERS OF THE NAME THOUGH. HOW I MADE FRIENDS WITH

HIM WAS PLAYING BATTLE ROYAL. HE KILLED ME THEN SENT ME A FRIEND REQUEST. I ACCEPTED IT. HE SAID HE WAS SORRY AND THAT HE NEEDED MORE EXPERIENCE POINTS BUT THAT FEELS LIKE THINKING WIN WIN TO ME.

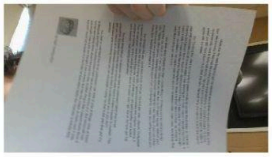
I ALSO THINK ABOUT SHARPEN THE SAW. I MOSTLY THOUGHT OF IT BECAUSE YOU NEED TO KEEP DOING WHAT YOU LIKE TO DO. IF YOU KEEP DOING WHAT YOU LIKE, THAT COULD MAKE A GOOD SKILL FOR YOU. LIKE PLAYING VIDEO GAMES, LISTENING TO MUSIC AND EVEN MAKING YOUTUBE VIDEOS. IF YOU DO WHAT YOU LIKE IT COULD BE A GOOD SKILL FOR THE FUTURE. IF YOU STOP DOING IT FOR A YEAR YOU WILL BE WORSE AT IT EVERY TIME BECAUSE YOU ADAPT TO IT.

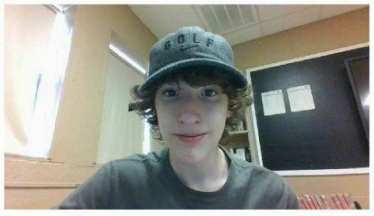
FOR SHARPEN THE SAW I COULD THINK OF A LOT OF THINGS. THE FIRST PART WAS I PLAYED DODGEBALL IN MALDEN MO AND I WAS THE BEST AT DODGING BALLS. I GOT HOMESCHOOLED AND STOPPED PLAYING IT. THEN AT ONE POINT I WENT THERE TO RISCO MO. I WAS TERRIBLE BUT I AM GETTING BETTER AND BETTER. ANOTHER IS FORTNITE. AT FIRST I WOULD GET 50 OR ABOVE ON RANKS, NOW I GET 2ND OR 3RD AND GOT 1ST ONCE BECAUSE I KEPT PLAYING AND GOT BETTER.

THE LAST THING THAT GOT MY ATTENTION WAS SEEK TO UNDERSTAND RATHER THAN TO BE UNDERSTOOD. BECAUSE IF YOU KNOW WHAT SOMEBODY ELSE MEANS IT MAKES IT EASIER TO EXPLAIN. THE PART YOU NEED TO DO IS UNDERSTAND SOMEBODY FOR THEM TO UNDERSTAND YOU. IF YOU DON'T UNDERSTAND WHAT SOMEBODY MEANS YOU CAN NOT EXPLAIN IT EASILY. SO THAT IS THE PART THAT GOT MY ATTENTION.

FOR SEEK TO UNDERSTAND THAN TO BE UNDERSTOOD I CAN THINK OF A LOT OF THINGS. ONE OF THEM IS MINECRAFT AND FNAF. EVERYBODY KNOWS FNAF HAS A STORY AND THINKS OF IT. BUT MINECRAFT HAS LORE TOO AND NOBODY THINKS ABOUT IT BECAUSE IT'S NEW. ANOTHER THING IS THAT I PLAYED MARIO BROS 3 AND THOUGHT IT WAS A PLAY AND THOUGHT IT WAS A THEORY. BUT THEN THE CREATOR OF MARIO SAID IT WAS TRUE AND I FOUND OUT BECAUSE OF A YOUTUBER HE DOES MARIO MYTHS THE YOUTUBER IS INFINITE BITS.

That's the end of my essay. Also I started playing Rocket League again. I played it in the past and stopped till now I started. If you don't know what Rocket League is, it's a game where you play soccer but with cars. I am playing it a lot. 3/20/25





I am having a lot of fun. I am in Jag and am waiting for Art.

I am actually hungry. I also have been watching a lot of YouTube things like Poppy Playtime and FNAF either that or Analog Horror. I really like horror games and YouTube videos. Another thing I have been doing is playing Super Mario 64 on my Switch using Mario 3D All Stars. It is a good game. I have 39 or 40 Stars. I need 50 to get through the next door and I am really good at it. Another thing is Smash Bros Ultimate. I am doing Adventure Mode. Yesterday I finally got to the dark realm and my first goal is to get Mewtwo from Pokemon and beat the game. I am also Trying to find secrets Using YouTube. Also yesterday I had a dream again I am in a really small hallway with a rack with chairs the first time I had the dream was 3 years ago When I saw the hallway then I didn't know what the place was the dream yesterday I realized it was Risco gym Hallway next part I am in a random house don't know what that was then I go into another room its a gym but it looks like the one from Jester a YouTuber in Canada he makes 3am Videos and 10 years ago he used that gym I knew that then then I go to the next room its bright then I wake up to me it is creepy cause all but 1 of the places I saw 1 in the future and one from the past weird right But one more thing about it was my hair in the gym it was thin like I had it every day in the past and Risco hallway it was Curly that's a hint I think but that's where it ends for now I will write more later Also I look on YouTube and most mario Creepypastas are based on Mario 64 tecnically a Creppypasta is a horror story made up to either be enjoyed or Scare you and I watch a lot of mario ones when I do watch them my Favorite Mario 64 Creepypasta is the Giant wario head in Mario 64 it is not real but it is really cool and in a commercial for the game before it came out there was a Floating wario head that was in dire dire docks stage and the bowsers submarine entrance level in the background and Wario would talk so I think that is where it started the whole creppypasta started right there weird right. Also in the files of an official Spongebob Game made by Nickelodeon there was a creepy image in the files.

This is an image made by someone who did a rom hack to add him in the game. It is cool right but the one I watched looked a lot different. Also I watch a lot of shows and 2 of them are Godzilla vs Kong and Jurrasic world in Fortnite they might have a collaboration with Jurassic world or make a return with Godzilla vs kong but I think it is both of them but we have to wait to find out I will write more later. 4/1/25 It is now February and I have a lot to say about my spring break First it was hot and I opened my window I had to get on my dresser then I opened my screen on the window and had my head out the window and everything was calm nothing but relaxing and calm the second thing was I WORKED EVERY DAY BUT SUNDAY another thing is I watched Gravity falls later I worked outside after I got done me and my sister Anna where playing Baseball with a pipe and a soft ball my sister could not hit 1 ball but I hit 100 out of 150 another thing is I listened to Murder Drones song Bite Me and had my head out the window I had a good week then today I went to the doctor in Dexter and had a donut on the way back and got a plastic Minecraft cup from Mcdonalds and then right here where I am in History Class am writing this story but I also figured out Parker Plays on Disney XD is not in DVD and I found an Idea thats better I was going to make Journal 3 a show but now I am making it a Movie had the idea sitting in a chair outside I also have a lot of lego and knockoff legos of Minecraft 1 of the Knockoff legos were a Herobrine character a Creepypasta character and that made me think of Creepypastas also going to look and see if Yo Kai Watch season 2

and 3 is in DVD in English right now actually I can´t I will do it later I have been thinking about how I haven´t seen Alexannder Goodrich in a year some things that make me think of him is the Just dance with me song from Moonwalk because it was the first to come on the radio during a sleepover at his house Playing Minecraft and Yo Kai Watch because he was the only one who I knew who liked it before I meet him I liked it before I met him but the show ended in 2023 and there is still a show in Japan. That's what I had to add today.

. Here is my English Essay 3/31/25 Yo Kai Watch.

English Essay
Why Yo-Kai Watch is a good show

This is why I think Yo-Kai Watch is a good show. I have been watching and playing the games for a long time. And it helped me make a friend. I thought nobody else liked the games, shows and movies but I made Friends who also liked it. This is why I like Yo-Kai Watch.

Yo-Kai Watch is a good show because it shows that something you don't hear about can help you make a Friend. Yo-Kai Watch came out on October 12th 2015. It was something I liked a lot but nobody talked about it. Then I met my Friend for most of my life. His name was Alexander Goodrich. We played the 2nd game together a lot and traded the Yo-Kai in the game and had Fun. That showed me that something nobody talks about can help you through life and make Friends.

Yo-Kai Watch is a good game because it helped me make a friend. I met Alexander Goodrich and that is how I found out I was not the only one who liked the games and shows and

the movie. The show started on October 12th 2015 and Ended in September 2023. The show was one thing that helped me make a friend and make good memories. That's all that matters to me. I watched it and that's what I think.

People who don't like the show would probably say that the show is still being made in Japan but not the United States. or that the show existed for 9 years. Because they may believe that something that is not talked about is not a good show. But that's not the truth about everything and some shows that are not talked about would be good shows.

That is how I think Yo-Kai Watch was a good show. It can help you make friends and give you good Memories. Some people may say it is not a good show. but I think it is a good show and it helped me make a friend and some memories. And that is why I think Yo-Kai Watch is a good show.

4/4/25 I drew in my Journal 5 book and 1 was Galem I did terrible but I did better on Darkon I am thinking about some old shows I used to watch but mostly can not think of anything I actually just watched Gravity Falls till the storm started and the tv signal went off yesterday but could not sleep easy the storm was loud sounded like an avalanche or something and I could not fall asleep easy at all but here is my wallpaper I am using

People who influenced my life

The 1st person who influenced my life was Alexander Goodrich; he was my first friend in Malden. We liked a lot of the same things like Yo-Kai Watch and Minecraft. We are the same age and his Birthday is two days before my Birthday. Mostly a part that made an influence on my life was that he liked Yo-Kai Watch. I thought that I was the only one who liked it but he was the only person I met who also liked Yo-Kai Watch. He was my Best friend then and now.

The second person who Influenced my life was Ethan, a Youtuber. I met Ethan when I went to Malden High School in 6th Grade. The part where he influenced my life is he had a YouTube channel and made a video of him making a go kart with led lights. It made me think that maybe I could be a YouTuber. Ethan said his ears hurt when the bell went off to go to another class. I stopped seeing him when I started getting homeschooled.

The third person who influenced my life was Scott Cawthon. Scott Cawthon made Five Nights at Freddys a horror game. He made the 1st, 2nd, 3rd, 4th, 5th ,6th, and Ultimate Custom Night all by himself. It was one of my Favorite franchises and I like the movies, Games, books, and songs. The best part is that he put a story in the games but you have to look at every game. It was my Favorite and the only horror game I liked at all. It made me think of using me playing FNAF games for YouTube videos. Everyone I mentioned and a lot more people helped me become who I am today.

Do you like it? That's all. Also I have 8th hour today ¨which is not even a punishment to me¨ and I don`t know which class to go to and asked Alec and B but they don't know where to go either

but I also am thinking about other things also did I put my History work on here if I did not I will right now no I didn't here it is.

America Moves West! Essay Rubric

The main reasons to move west were to make money, religious reasons, and more land. Even though it is moving west everyone all had different reasons. The move west was a hard point in time but it is all for a reason. They tried moving west until they did. And it was all worth it I think. So this is why people moved to the west.

The first reason was to make Money. The most thought of thing is to make money. They moved west to make money to use to buy things and get food. The main thing to do in life is to get a job and make money. so that is what the first reason was about. They all need money to get food, Clothes, and live in houses.

The second reason was Religious reasons. A Mormons leader named Bringham Young who lived in Utah was killed by an anti-Morman mob. Since they needed a safe place to live they moved to the United states to the west till they got to Texas. They Followed the Oregon trail to the west. They were moving away from the anti Mormons mob to get a better life and be safe. They stopped in Texas and lived there at the end of the Mormons Trail.

The last reason was to get more land. The main reason to move west was to get land to live on and farm on. They used the land to farm and make food to sell and eat. They also used the land to build houses on and live at. They used the Land to live on and use to make food and survive. Everyone mostly started wars just to get land so it makes sense Because everyone needs somewhere to live so this is the reason that is used the most.

Even though all of the reasons made the move west more wanted they had the same impact they moved west. They all were used to surviving and making food, making Money, and getting a safe place to live along with claiming more land . The main thing that made the move west was to help more land and do what you like to do. That's why it all ended the same way and that's why you can say people are never the same but do the same thing because everyone moved west.

Okay now I added it I am thinking about Minecraft and other Games but FNAF is the thing I am thinking about mostly FNAF World because the normal version has many playable characters and the scratch version has the FNAF 1 characters also they did not do good on the scratch version. Minecraft Mobs

The mob was first added in **rd-132328** and it used both the skin and model from another game Notch was developing around the same time as Minecraft, named Zombie Town. In later versions of the game (namely, **rd-160052**) you were able to spawn a Human by pressing **G**, however this function was removed in 0.24_SURVIVAL_TEST. At first, they were relatively harmless, as all they did was jump around while flailing their arms. The animations were inconsistent, however. If your game is running at a high frame rate (50-60 FPS), you can see the mob's movement animation start to stutter every once in a while.

The mob was later put back in after the Dock MD3 mobs were taken out, in **0.31 of February 1st, 2010-1** and now drop either string, feathers, or gunpowder. They are also meant to drop flint and steel, however this wasn't working until **0.31 of February 1st, 2010-3**, in which you cannot destroy stone and ores with bare hands. They also drown in water despite appearing to be swimming like the player. However, they were replaced by the signature pig, sheep (without wool), zombie, creeper, skeleton, and spider models in **0.31 of February 3rd, 2010**In **0.24_SURVIVAL_TEST**, the texture for this mob had its goatee removed. In **Beta 1.2**, the Mob savegame id was removed. In versions prior to **Beta 1.6.6**, Monster's AI was fully intact and was hostile towards the player (only accessible using map editors, though). After **Beta 1.6.6**, this mob

was slowly being removed update by update and **1.11** completely removed the mob's leftovers from the game. Prior to **1.11**, the leftover AI could have been used to create a mob similar to the Human using mods.

Minecraft: Xbox 360 Edition

Barrier Blocks

Just like Command Blocks, this block cannot be obtained in Java Edition without console commands, and cannot be obtained legitimately in this port at all. However, when hacked in, they are fully functional, acting exactly the same as their Java counterpart, even showing the "no" sign on all barrier blocks when holding one in your hand. Interestingly, barrier blocks are used in the Shrunk glide map to prevent the player from going out of bounds, and the barrier blocks used to be in the Update Aquatic tutorial world, but it got removed. Barrier blocks can be obtained with pick block in game, or with inventory editors (tile id 166 or minecraft:barrier). The tooltip for this blocks states "An invisible but solid block."

Giant

A zombie six times the size of a regular zombie that has been implemented since the Indev phases, but can't spawn since they require a light level higher than 11, but less than 8 (which is effectively impossible). In **14w06a**, Giants were allowed to render armor, but their AI was completely removed. However, in **18w50a**, they were given the zombie AI, the zombie hurt sound effect, the ability to run twice as fast as zombies, the ability to burn in the sun, and the ability to infect villagers. Unfortunately, these effects were short-lived, as they were reverted in **19w03a**. In the April Fools update **20w14infinite**, Giants spawn naturally in some dimensions.

As Giants use the same textures as Zombies, their textures were subsequently changed in **18w43a** due to the Zombie texture being updated. Interestingly, Giants will only take damage when their legs are attacked due to their hitbox only covering their legs rather than their full body.

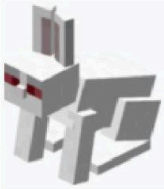
Since version **13w36a**, they have been spawnable using the command `/summon minecraft:giant`.

Killer Bunny

The killer bunny is a variant of the rabbit specific to Java Edition that is hostile to players and wolves. It is a reference to the Killer Rabbit from the 1975 film *Monty Python and the Holy Grail*. It was added in **14w27a**, before being removed from spawning naturally in **14w34a**. Jens Bergensten explained that the killer bunny was removed because it was a "tired joke" that had "been referenced in so many games", and because it was "basically a random death event" due to its unusual strength, dealing 8 hearts of damage on Normal.

Its fur is pure white with blood-red eyes that are horizontal, compared to a normal rabbit's vertical eyes.

The killer bunny can only be spawned using the command `/summon minecraft:rabbit ~ ~ ~ {RabbitType:99}`. It also appears with a nameplate over its head reading "The Killer Bunny".



Illusioner

The Illusioner is an unused hostile mob added in **1.12** and is one of the three illagers. Interestingly, it is listed as a raid mob, and may even spawn with a Pillager banner, despite not appearing in raids as of **1.20.2**.

When killed by a player, any naturally spawned equipment (including their bow) has an 8.5% (9.5% with Looting I, 10.5% with Looting II and 11.5% with Looting III) chance of dropping, and drops with a random durability.

Like the rest of the illagers, they attack villagers, and even participate in raids if spawned by players. An Illusioner always tries to maintain a consistent distance between itself and the player, retreating if the player gets too close.

It can attack within the range of 12 blocks using either a bow that has an 8.5% drop rate with random durability or a casted spell.

Out of Bounds Secrets

Xara's Admin Skin

In the game's files is a complete skin for Xara's admin form - only seen in-game in old posters in the First World / Underneath. The lead writer for Season 2 answered in a Tumblr ask that the skin's original purpose was for use in a flashback monologue that eventually got cut. The texture was incorrectly made, resulting in the hands appearing incorrectly.

Passive Mobs

Chicken

Chickens from the original *Minecraft*! They do appear in the final game, but only as hostile mobs (yes, you read that right.) These versions were to be completely passive, much like how they were in the original game. It would've appeared alongside the equally unused Enchantsmith.

-

Chicken.

Unemployed Villager

A normal villager without a profession. They appear in the Creeper Woods loading screen, but since that is pre-rendered their assets go unused as they do not appear anywhere else.

-   An unemployed Villager.
-
  The unemployed Villager's texture.

Wandering Trader

A villager that gave the player random Artifacts based on their power level. They were replaced by the Village Merchant in update 1.4.3.0.
Strangely, the Wandering Trader still appears in the loading screens for the Camp, which was even updated in 1.15.0.0, as well as the Echoing Void DLC ending cinematic, but since those are pre-rendered their assets currently go unused.
They would have appeared alongside the Trader Llama.

-
  The Wandering Trader.
-

- 
The Wandering Trader in-game.

Mason

A type of villager that would've increase the power level of the player's current gear using the also unused Diamond Dust item. They were most likely replaced by the Blacksmith.
The location of their stall in the camp was later taken by the Gift Wrapper in update 1.4.3.0.

- The Mason.
- The Mason's texture.
-
The Mason's stall in the camp prior to 1.4.3.0.

Retired Adventurer

A villager who would've given quests to the player, similar to the Mission Map in the camp. They were added in the Creeping Winter DLC, but have yet to be implemented in the game.
In the game files, they are referred to as the Quest Giver.

-
  The Retired Adventurer.

Hostile Mobs

Mage

An unused hostile mob that was found in the Dungeons Beta, but went unused in the final game. Regardless, it still existed in the files of the game until being removed in the 1.2.0.0 update. The Mage was capable of levitating the player up and then smashing them back down, stunning and damaging the hero, similar to an Iceologer. The player couldn't attack when it is lifted by the Mage. Despite not appearing in this game, they do appear fully functional and used in *Minecraft Dungeons: Arcade*.

-
  The Mage.

Jack O' Lantern

Also referred to as the Jack O' Lantern Trap. They would've blended in as a regular pumpkin before revealing themself and firing pumpkin seeds at the player. They appeared in the Dungeons Beta, but have yet to be implemented in the final game.
Interestingly, the Jack O' Lantern's audio is marked as item SFX, despite it being a mob.

-

  The Jack O' Lantern.
- 
  The Jack O' Lantern's texture.
-

  The Pumpkin Seed projectile that the mob would have shot. This also goes unused.

Web Spider

A variant of the Spider enemy who appeared in the Dungeons Beta. It was removed in the 1.7.3.0 update, however. This mobs texture seems to be taken directly from the Minecraft mod Twilight Forest, as it is pretty much identical to the Hedge Spider from Twilight Forest.

Unused Items

Ender Armor

Previously known as Curious Armor, Ender Armor was an armor set that like the cut Mage enemy, appeared in the Dungeons Beta. However, it was unable to be acquired. When equipped, it had a 5% chance to teleport players when they took damage. Also like the Mage enemy, it is fully functional and able to be acquired in *Minecraft Dungeons: Arcade*.
It had the description of **No one knows where this strange armor came from but it seems familiar to you.**

Unused Enchantments

Knockback

An enchantment meant for melee attacks. This would've given the player a chance to knock back enemies after a melee attack. The chance increases with each tier.

- **Tier 1**: 10% chance to trigger (costs 1 enchantment point)
- **Tier 2**: 20% chance to trigger (costs 2 enchantment points)
- **Tier 3**: 30% chance to trigger (costs 3 enchantment points)

End Rogue

A scrapped hero most likely planned for the Echoing Void DLC. It was added to the game files in the 1.5.0.0 update, but was left unobtainable.
It can still be readded to the game via modding as it is still listed in the Skins DataSheet, but has the IsReleased tag set to False.

End Rogue hero.

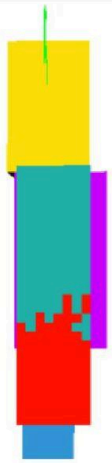
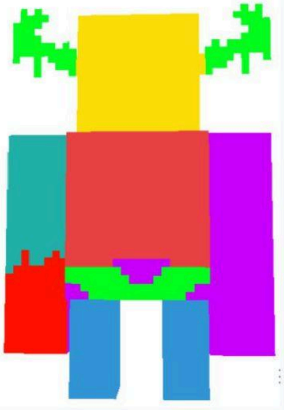
That was Minecraft Facts. There are a lot of unused and extra details about the game and its spinoffs.

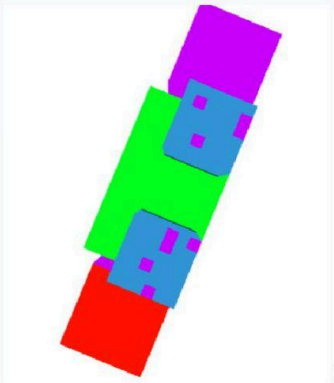
Ar Ar Ar

Do you remember Milo



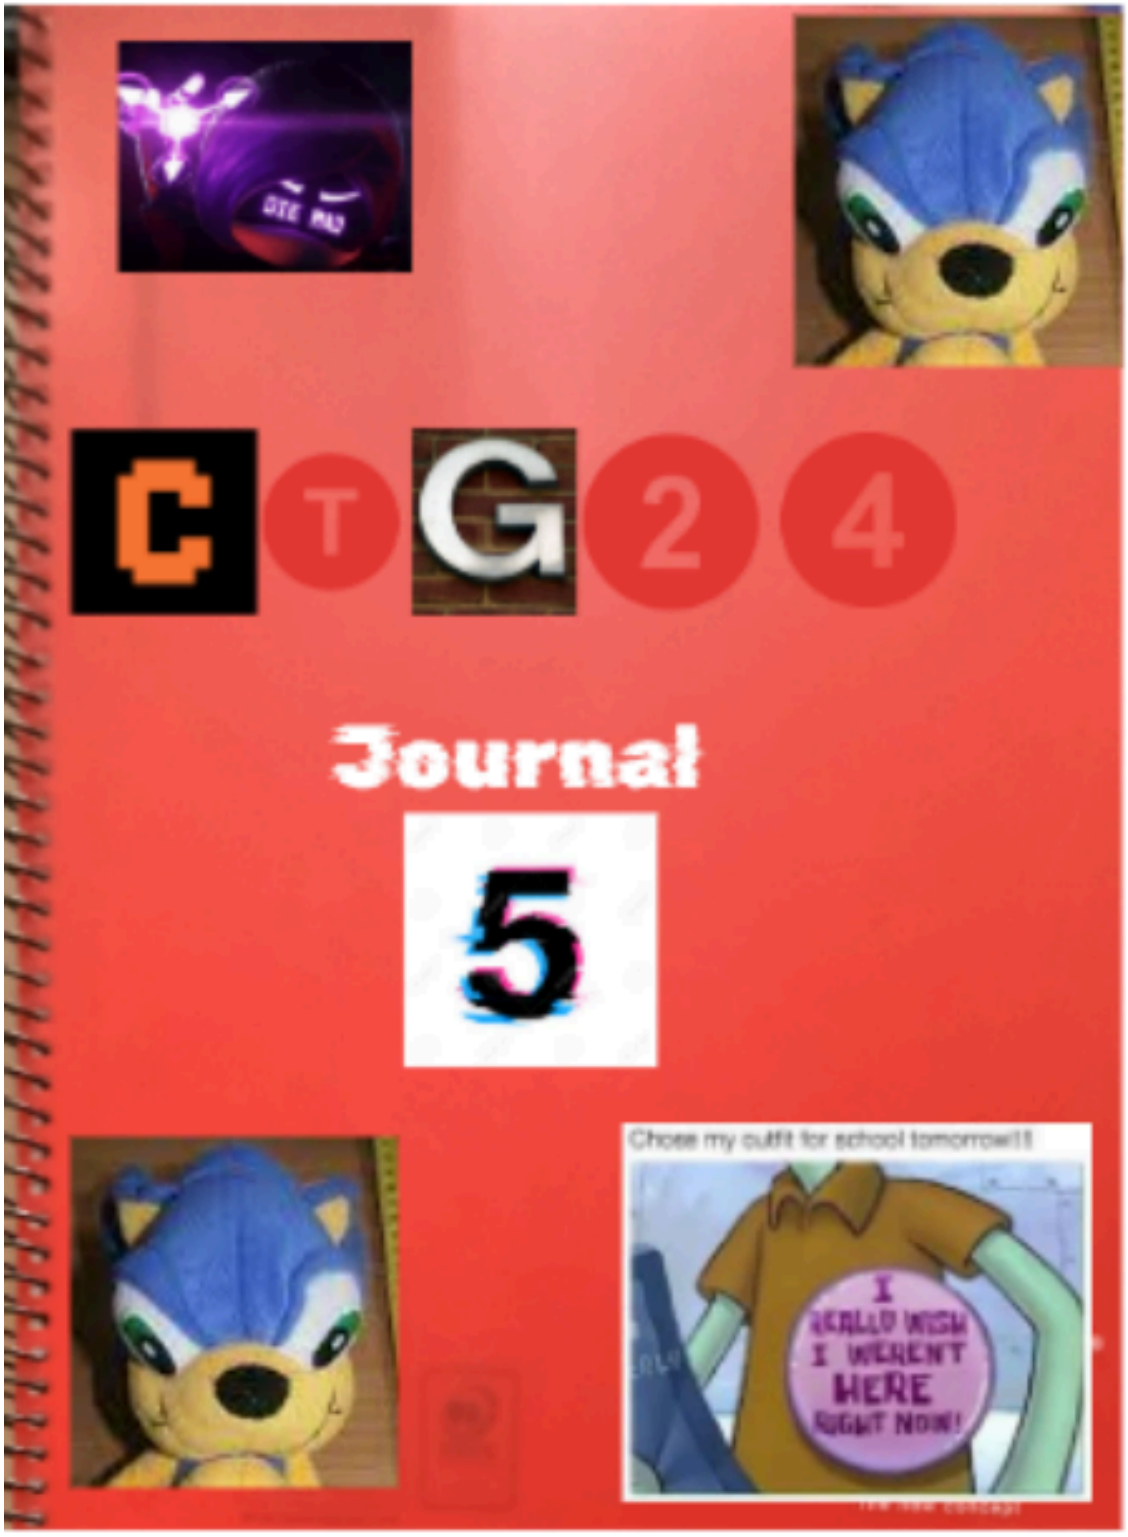
Murphys law it is April 17th and I miss it.





I made a Minecraft warden into spongebob things.

It is April 28th 2025 and I decided to make another Journal to post to my YouTube channel so here we go here the the poster



So I have been making more videos recently I found out I still had the file for my old channels FNAF song video so I got it then went and got an AI video voice generator put it there then put the FNAF song file there and added my Journal 3 script as a surprise and posted it saying I remade it so I have it on my channel and that's a good thing because I forgot the password to my first channel so I need to find out the password in the past now I don't need to but I am still thinking the thing I am scared of the most is losing friends and being alone I don't like being alone but what I watched yesterday helped it and I have memories of being with Alexander Goodrich, Carmen Kimball, and other friends but I don't see them anymore and sometimes I wish I could go back in time but you can't and sometimes it's hard to have fun the only person who liked Yo-Kai Watch before I met them was Alexander Goodrich I really miss my friends but I made new friends here in Risco like Brent Burlason and I am watching YouTube a lot and I got a YouTube channel but a YouTuber I watch a lot Jessii vee said her basement flooded yesterday in a video but mostly I can talk day but maybe I should wait and add it to this later so you will have to wait ���� I am going to put my Script for Journal 3 Movie on here now

The Intro:

The Movie starts with a picture on a wall right by it the Journal 3 logo shows up it shows an TMNT metal art box open and the red dragon coming out and the main start of the movie beggins.

The start of the movie:

It shows me listening to music Undefeatable from Sonic Frontiers and practicing fighting using a pillow to punch and I then think about making a puppet mask for a YouTube video then it cuts to me doing a youtube video showing my FNAF Puppet mask and I decide to make a costume to go with it then I made the rest of the costume using gray gloves, gray shoes, and black shirt with no sleeves and black shorts. Then it cuts to me making another video showing me wearing the costume so I decide to use it later and keep it safe after that I decide to go threw old toys and movies and find Angry Birds and Minecraft toys then I find the Unknown Entity and put it with the rest.

The Second part:
I decide to keep the red dragon and put it in my dresser in an TMNT art box after that I go and leave the room then it shows an unknown person bringing the toy alive after I come back I found out that it was gone and go looking for it and can't find it so I decide to look for it later then I have a dream where I see an animatronic outside my door and I go into my closet and when it opens the door I wake up it was like any other day and I start listening to music again.

The Third part:

After I start listening to music I lay down to see something on my fan it was my toy dragon I get it down and put it up and I start reading Journal 4 on my TV and then I a portal appears in the floor and it brings the toy dragon and I don't notice I then start making another YouTube video and the portal reappears and the toy dragon comes out I hit it back in and a ring falls off like one from the sonic movies after that I start thinking if it is safe and text appears saying continued in the new show.

Credits:

I am wearing my puppet mask and light of hope plays then cuts to static then THE FIRST Movie ends.

Names in credits under Friends:
Brent Burlason
William ClayTon Thacker
Colton booze
Jace Godcey

But it might be a while before it is made I have not started filming so it might be a while so thats out of the way but I have been thinking I might make 100 more Journals because I want to have enough for a Journal but not too much where it gets boring so I am going to continue some by making more Journal so that's all for today but before I go do you remember PARKER PLAYS on DISNEY XD because I do also I am now in history and I am trying to remember what the day I started the Oregon trail game was so I think it was April 25th 2025 I did this so I can remember today so now I can remember. People who influenced my life

The 1st person who influenced my life was Alexander Goodrich; he was my first friend in

Malden. We liked a lot of the same things like Yo-Kai Watch and Minecraft. We are the same age and his Birthday is two days before my Birthday. Mostly a part that made an influence on my life was that he liked Yo-Kai Watch. I thought that I was the only one who liked it but he was the only person I met who also liked Yo-Kai Watch. He was my Best friend then and now.

The second person who Influenced my life was Ethan, a Youtuber. I met Ethan when I went to Malden High School in 6th Grade. The part where he influenced my life is he had a YouTube channel and made a video of him making a go kart with led lights. It made me think that maybe I could be a YouTuber. Ethan said his ears hurt when the bell went off to go to another class. I stopped seeing him when I started getting homeschooled.

The third person who influenced my life was Scott Cawthon. Scott Cawthon made Five Nights at Freddys a horror game. He made the 1st, 2nd, 3rd, 4th, 5th ,6th, and Ultimate Custom Night all by himself. It was one of my Favorite franchises and I like the movies, Games, books, and songs. The best part is that he put a story in the games but you have to look at every game. It was my Favorite and the only horror game I liked at all. It made me think of using me playing FNAF games for YouTube videos. Everyone I mentioned and a lot more people helped me become who I am today.

It is April 30 2025 and I am listening to Murder Drones music links above my essay hope you like them but I am making more decisions for my Journal 3 movie and I want to make a good movie so I am adding more to the script so It will be a better movie because it is my first movie and I want it to be a good one but I used an AI thing for Images also I am thinking about making more videos here at school tell me if Its a good idea. It is May 1st 2025 and I am thinking about old things and my Journal 3 movie in the lore I want it to be that in the movie or shows it does not exist “Any More” and that means that is part of the lore and the Dragon is something from the book where it says how to defeat it that is a main reason why it is gone in the movie and show I am ready to finish my movie and there is going to be a show I am also making more ideas for the movie and future movies and shows to make better ideas but The puppet mask is out I lost the mask it broke and I will put that in the lore so I can keep the mask the future tech is the image above and it is going to break in and post credit scene to tease another movie I am putting my friends names in the movie some I didn’t add in the script that is not finished but it is version 1 so makes sense because I am still making more of the story to make the movie I might put my own Minecraft skin in the movie but it is only a idea might not happen because I am putting a lot of references in the movie one scene has a fnaf animatronic edited in and I might add more editing in it because I am good at it sometimes so I am making character designs and posters so I hope its going to be good plus I am waiting to make a ¨Saying Goodbye to Yo-Kai watch. 5/5/2025 My grade was just told We get out a week early from school BEST YEAR OF SCHOOL IS 8TH GRADE but the only thing I can think of that is bad is I don´t see Alexander Goodrich and he does not get out early because he goes to Malden School 😢 I also miss him a lot. 5/8/2025 I have been thinking about trying to make a Yo-Kai Watch animation series since the show ended, the only problem being I don't know how to make an

animation? .

Work 2025-2026: In *Field of Dreams*, Ray Kinsella kept hearing a voice, and everyone thought he was crazy. The voice told him to build a baseball field, and *“he will come.”* After that, he builds a baseball field, and a baseball player appears.

Ray continues to hear the voice, which tells him to "Go the Distance." He is unhappy, and Ray thinks the voice is from the man who wrote books in the movie. When he finally finds the person, they go and see his ghost.

In *Cool Runnings*, Irving Blitzer is a coach helping three Jamaicans become bobsledders. In a scene, it’s revealed that he had cheated the last time he competed. He helps them get to the place where they will compete. They keep failing, but at the end, they crash and push the sled to the finish line.

He helps them by teaching them what they need to do. He also helps them raise money to get to the Olympics, talks to them, and gets them a practice sled. He trains them to get them ready and helps them get in after they were rejected, so they can compete.

In *Liar Liar*, Fletcher Reede is a lawyer who is trying to spend more time with his son. Fletcher can’t tell a lie after his son wishes that he couldn’t lie. He tries to do his job and lie, but he eventually finds a way not to lie. In the end, he gets to his son before he moves away.

.I asked FNAF explanation in ChatGPT Writing a 100-page essay on the entire *Five Nights at Freddy's* (FNAF) series would be quite an undertaking! However, I can help you break down the entire FNAF lore, games, and timeline into a detailed structure, and then if you'd like, we could flesh out the sections step by step. That way, I can help you get started on something comprehensive.

Here's a breakdown of the sections that could make up a lengthy essay about the FNAF series:

History work slam dunk
ClayT History Work

The Slam Dunk is a part of history that changed Basketball forever this is how. Slam Dunk history started with the First recording by Joe FortenBerry in 1936. Then Bob Kurland's first college dunk in 1944. After that the move was Banned in High schools and College but was brought back by the American Basketball Association with its 1976 Slam Dunk Contest. But the first Documented Slam Dunk was at the 1936 Olympic Games. The term Slam Dunk was by Chick Hearn.

The Slam Dunk was initially viewed as a higher percentage than an exciting shot. But Dunks were not widely celebrated at the beginning of Basketball. NBA Adoption the ABA-NBA merger brought players and "Dunker League" culture into the NBA, and the slam dunk was re-popularized by generations of star Erving. Now Players like Michael Jordan, Dominique Wilkins, and Vince Carter are celebrated for their Iconic Dunks, Though the moves popularity has seen ebbs and flow.

English Essay

Why Yo-Kai Watch is a good show

This is why I think Yo-Kai Watch is a good show. I have been watching and playing the games for a long time. And it helped me make a friend. I thought nobody else liked the games, shows and movies but I made Friends who also liked it. This is why I like Yo-Kai Watch.

Yo-Kai Watch is a good show because it shows that something you don't hear about can help you make a Friend. Yo-Kai Watch came out on October 12th 2015. It was something I liked a lot but nobody talked about it. Then I met my Friend for most of my life. His name was Alexander Goodrich. We played the 2nd game together a lot and traded the Yo-Kai in the game and had Fun. That showed me that something nobody talks about can help you through life and make Friends.

Yo-Kai Watch is a good game because it helped me make a friend. I met Alexander Goodrich and that is how I found out I was not the only one who liked the games and shows and the movie. The show started on October 12th 2015 and Ended in September 2023. The show was one thing that helped me make a friend and make good memories. That's all that matters to me. I watched it and that's what I think.

People who don't like the show would probably say that the show is still being made in Japan but not the United States. or that the show existed for 9 years. Because they may believe that something that is not talked about is not a good show. But that's not the truth about everything and some shows that are not talked about would be good shows.

That is how I think Yo-Kai Watch was a good show. It can help you make friends and give you good Memories. Some people may say it is not a good show. but I think it is a good show and it helped me make a friend and some memories. And that is why I think Yo-Kai Watch is a good show.

In *Field of Dreams*, Ray Kinsella kept hearing a voice, and everyone thought he was crazy. The voice told him to build a baseball field, and *“he will come.”* After that, he builds a baseball field, and a baseball player appears.

Ray continues to hear the voice, which tells him to "Go the Distance." He is unhappy, and Ray thinks the voice is from the man who wrote books in the movie. When he finally finds the person, they go and see his ghost.

In *Cool Runnings*, Irving Blitzer is a coach helping three Jamaicans become bobsledders. In a scene, it’s revealed that he had cheated the last time he competed. He helps them get to the place where they will compete. They keep failing, but at the end, they crash and push the sled to the finish line.

He helps them by teaching them what they need to do. He also helps them raise money to get to the Olympics, talks to them, and gets them a practice sled. He trains them to get them ready and helps them get in after they were rejected, so they can compete.

In *Liar Liar*, Fletcher Reede is a lawyer who is trying to spend more time with his son. Fletcher can’t tell a lie after his son wishes that he couldn’t lie. He tries to do his job and lie, but he eventually finds a way not to lie. In the end, he gets to his son before he moves away.

(September 30th 2025) Also I read into the pit book and listened to the song 2 out of 3 were good songs. Into The Pit is a 5 Star song and Count the Ways 4.5 out of 5 stars while to be beautiful 1 star it does not feel like a FNAF song. But that's not all over the weekend. I watched Iron Man 1, Iron Man 2, Spider Man Homecoming, and Spider Man Far From Home. I am also waiting to see Avengers Doomsday and Avengers Secret Wars because it sounds epic

A conspiracy about Abraham Lincoln's Assassination was that it was the result of a confederate plot. The conspiracy was that Abraham Lincoln was killed as a part of a grand conspiracy of Confederates arose almost immediately after the Assassination. And sayed that Coded letters was found in Booth's trunk back at the National Hotel tied to him to the Confederacy. It said that the theory had undergone a marked revival in the past 20+ years. In 1977 a statement conspirator George Atzerodt made before the trial in 1865 was undercovered. In it he told of Booth's knowledge of a Confederacy plot to blow up the white house. The hypothesis of a Confederacy grand Conspiracy was detailed in 1988 by William. A Tidwell. James O. Hall, and David Winfred Gaddy in Come Retribution: The confederate secret service and Assassiantion of Lincoln. Tidwell supplied further evidence in 1995 with the publication of April 65 Confederate Convert Action in the American Civil War. Another work which stresses Confederate involvement , but lacks the detail of the aforementioned books, is Larry Starkey's Wilkies Booth came to

Washington. In 2015 John Fazio’s Decapitating the Union: Jefferson Davis, Judah Benjamin and the Plot to Assassinate Lincoln was published.

The Slam Dunk was an Important move for Basketball history. Even though the Hype for the move died down we still remeber it. Today Video Games are everywhere and Basketball has not been talked about a lot but the move still made a part in history. Even in video games its important cause they still added the move in 99 percent of Basketball Video games but it doesn't mean its not important. As long as people think about it it will be an important move.

Also I am waiting to go home but I got a big plan for Journal 3 For Glitched Pages Episode 3 has Minecraft Clay Episode where it takes place after the First Episode while After that part it also has to do with Jibanyan and his story in the same episode but he is going to show up in the middle showing his part then going back to the Minecraft Clay storyline but after Minecraft Clay Storyline it goes and Shows Jibanyan storyline again for the rest of the episode but for Journal 3 CTG24 MCU Arc Episode 2 it will be A Familiar Face and Takes place in the middle of the Glitched Pages show Storyline for the lore but in the end of Season 1 last episode it will show CTG24 and MCU CTG24 VS ERROR from Dimension 10 but at the end of the episode it will show a teaser and the Cliff Hanger for a 3 part movie Event Starting with Journal 3 Beginning of the War the Journal 3 The War Continues and ends with Journal 3 The Universal War Ends where it will combine the past elements from Journal 3 CTG24 MCU Arc, Journal 3 Glitched Pages, Journal 3 Beggining of the End, and Journal 3 The Cancelled Version but the Cancelled versions CTG24's Dimention will be sacrificed in the end where all that is left is the time and look as it was before but that dimensions time does not continue and nothing moves but ERROR won't fully be defeated and it will look like it be like Springtrap from FNAF HE ALWAYS COMES BACK. Also another thing is that I was right about Poppy Playtime coming to Fortnite but Springtrap might make it to Fortnightmares because the Boss Codenames AxisThrow and VentQuip so Get ready he might come.

(October 6th 2025) So Yesterday I found a Batman Mask and my Mom took and and threw it in the trash can with paint all over it I also Watched a thing about Unused playable lego characters in games there was an unused realistic cat in Lego Ninjago in Lego Batman 2 there was an Unused Batman dressed as Superman and Superman Dress as Batman in the files In the files of Lego Batman there is an FBI agent and last one I will talk about is the Ghost in Indiana Jones it is Creepy.

(October 6th 2025) I feel like crying right now here is my story So Yesterday My sister got in trouble for using a cover that she was not supposed to use and my Mom got mad about it and they yelled for 30 mins later when I came out of my room my Mom Yelled at me and said go back to my room after that the same thing happened 2 more time also I have ADHD and get mad easily so I ask when I can have my TV she said this afternoon well later that afternoon I ask for it she said no but that got me even madder well she kept yelling at me and my sister and at one point my Dad asks my Mom to stop yelling which the normal thing for my Mom to do she starts arguing with my dad and saying why she thinks she should yell and Dad tries to say why she should stop but she does not care He yells Fine and just to note My Dad is blind but Later she starts yelling again and says she is going to take my last FNAF book the next day thats when I snapped and said that if she takes it I would Take her phone and a piece of her jewlery also saying that I will kill her but that part is just to say I would never actually do it but It kept going but she doesn´t care we kept going tell I am crying in my room and she says I can keep it I could stop crying like a baby so I do but later when me and my sister are picking out clothes Mom chooses my Sisters clothes and my sister rips a hole in them she says she does not care that she was still going to wear them till I tell her that if she does that Anna would get Dress coded and also told my Mom she could go to jail for it and then she changes her mind about it and I was mad last night and the TV part was just being a jerk in my eyes she said I would get it in the afternoon but I didn´t and in the morning when my Mom got onto my Sister she said she thought Dad said something else My said she knew exactly what Dad said and Dad was also saying it was a Miss understanding and thats what started a Stupid Blanket Stupid thing to start it right well thats what happened yesterday hope you enjoyed my story Cause I don't think it over yet well thats a IRL Story from ClayT Gaming 2024.

(October 8th 2025) So everything has Calmed down since October 5th but I still can´t make YouTube videos but I am trying to make new designs and ideas for Journal 3 Glitched Pages, CTG24 MCU Arc, and Journal 3 ERROR War Saga but I made designs where all chaos emeralds turn blue and main CTG24 uses them also got a really cool design for ERROR called Dark ERROR because the main setting for the movies are

Dimention 10 but there is also going to be 2 scenes that are special first one has MCU CTG24 fighting William afton in the Springlock suit and He says I always come back and gets springlocked then MCU CTG24 kicks him off the mountain in Dimension 10 where all 3 movies take place and say Lets See if you can come back again I know I Always will and second scene will have springtrap in the third movie which I did not mean to be a third movie its going to be but its kinda the same number from FNAF games but other than that here are the images for Concept art

I made English work

ClayT Gaming 2024 English 2025

I came out of my house and got into my car to pick up an Ominous Hitchhiker. I had Started Driving to where I was going to pick him up when My car broke down on a Rural road and a wisp of smoke came out of the engine. I called to get my car fixed and found out it would cost one thousand dollars. So I went and edited videos for people till I got the money and paid the money. After that the car wouldn't start and was unfixable. I pugnacious Argued with them about it after it didn't work. I had a slough to pick up the Hitchhiker so far.

So far the whole time had gone brusquely when I tried to fix it. I decided to buy another car and I went and edited more videos until I got enough money and went and got the car. I bought the car and Mollified my Anger and the stress Subsided so I went to pick the hitchhiker up. When I got there the hitchhiker was my friend Ethan so I picked him up and took him to where he wanted to go and went home.

(October 9th 2025) so I might not be able to make or edit videos but I can still write down ideas for Journal 3 ERROR War Saga but first idea is that the cancelled OG Journal 3 show that was the beginning of ideas is back in a way the dimension is in the last one and will be destroyed and the UnKnOwN EnTiTy is going to be in Journal 3 CTG24 MCU Arc now that the dimension does not exist but there is going to be an post credit scene in the third movie where it show ERROR survived in the middle of the Dimension collapse so like William Afton he always comes back but thats not all then Journal 3 CTG24 MCU Arc will be the main show for a while since Glitched Pages will be over and Glitched Pages Characters will reappear in CTG24 MCU Arc so that parts not over but when ERROR comes back he will have his own episodes in Journal 3 CTG24 MCU Arc and that he is coming back to destroy everyone who got in his way but something bigger will come in the end and he and MCU CTG24 plus CTG24 will join together to stop the coming threat thats my Idea for ERROR to come back after the movies even though none of the movies for ERROR War Saga are made that whats going to happen afterwards just making a even bigger event plus remember the ERROR parts are not in MCU but the Main Show where MCU CTG24 is in the MCU but non officially cannon for Marvel Productions YET they can decide if it is or not but thats my Idea for after Glitched Pages and ERROR War Saga so get ready a new Saga is about to start reallyu soon but ERROR War Saga might have more characters from the MCU that are not MCU varients like Cartoon version of Disney XD Spider Man might show up If I can think of a good place so get ready for that event it should be made after Season 1 of Journal 3 CTG24 MCU Arc and the whole Journal 3 Glitched Pages show so ERROR War Saga is starting the future of Journal 3 CTG24 MCU Arc Also William Afton will show up in the first movie and 3rd movie Springtrap will show up I hope I get a lot better with editing that but get ready for a new story, A new Saga, and A new Beginning. Also It is now time for Movie class and I already got the Paper done so I am typing right now but back to the main

reason I am talking about what I was talking about last hour well even though Journal 3 Glitched Pages has 2 episodes 3rd episode is going to be Minecraft Clay where the first left off there is going to be 10 episodes in total +1 where it has a showdown between CTG24 + MCU CTG24 VS ERROR and 12 if you count Journal 3 CTG24 MCU Arc Episode 2 A familiar face which takes place during Glitched Pages half way through but after that and Season 1 of Journal 3 CTG24 MCU Arc I will start to work on Journal 3 ERROR War Saga starting with Journal 3 The War Begins then to Journal 3 The War Continues and last Journal 3 ERRORS WAR ENDS but they are all 1 movie just in 3 parts first has Willaim Afton, Spider Man Disney XD show, and OG UnKnOwN EnTiTy as part of the Universe collision but Avengers Doomsday is where this time is taking but where the rest of MCU characters and others in the movie are there Journal 3 Story Characters are in Universe 10 where ERROR is putting a War against CTG24, MCU CTG24 and other unvierse crossovers are fighting against ERROR So get ready for the movies its coming really soon also there are a lot of characters in the movies that are from games and movies plus there is still a story after it also if your in my movie class I hope your enjoying Star Wars Empire Strikes back too also I hate the text part at the begining for some reason but I have played the lego games of it so its not that bad. Also there was a scene in the movie that reminded me of Murder Dr nes because robots living in an ice filled planet reminds me of how Uzi and N live on Copper 9 an ice filled planet funny right. So this is today's last update. I got 12 minutes and I wanted to add In Math. I am setting out posters / my drawings and they are free and I add more every single day so if you want one come and get one.

(October 10th 2025) Well I was thinking about the past and future but there was things I left out of This book for the Past first being that when I was in First 6th Grade not counting Home School I went to Malden Mo High School and one thing that I ignored when writing about the past was that when I went there I had a crush on a girl named Crystal but Later learned that my friend Ethan did too so I ignored my own feelings and forgot about it but I did pass notes for Ethan he would ask me to pass Crystal some notes and every time I would give it to her and say here its from Ethan but that was in the past also I will say that One friend well If I mentioned that Tatum threw his lunch box on the roof I have mentioned him but my friends name was Jackson I think but he always was bringing either a Kermit the frog or that one puppet character with a pencil in his nose to school but he also brought Journal 3 book from Gravity Falls and that show is what inspired the Name of my Show but When I first came to Risco I will say that when I saw Hunter Tipton I thought he was actually Jackson cause he looks exactly like him but when my first 6th grade happened he was barley there because he kept getting ISS but I saw him 1 or 2 times the

last day at Malden High School but there was a lot more things that happened in the past that I had not put in I also had a crush on a YouTuber and told my friend Journey about it he said he did to also last time I saw Alexander Goodrich my Best Friend in my whole life in 2024 on both our birthdays which is March 7th his birthday and mine March 9th I didn't know what to say I got nervous cause I had not seen him for 10 months but I did talk when we played Fortnite also I got 3rd place after that I always got 2nd or 3rd place I only got 1 Victory Royal though but I have not seen him since but I hope I will see him again I can contact Carmen Kimball another friend from the past by asking Alec Kimball her cousin here at school who is also my friend but I won't seen Ethan again or also known in the past as Goat63863 from Youtube because he moved and took down his YouTube Channel and he was the one I talked to a lot in music in Malden High School but the only way I think I could possibly contact him is to ask Crystal his girlfriend if she still has his phone number but Don't know how I am going to do that also The first day of being at Risco was Summer School I first Met Braxton and Talked to him then I talked to ClayTon who is in front of me right now then my friend Braxtin Martin who Is one of my friend I can talk too still from then then when I first came to Risco in a school year the first 4 people I met was Alec Kimball, Brett Burlason, Jace Godcey, And Colton Booze I also wanted to add more about my past that I didn't add so you could know more also on the last day of school I got Ethans phone number and my friend I talked too in the mornings address which was SD 1600 I put Anitials so if I post this to youtube they can't find it but I threw up after I got home and it ruined the paper so I don't Know Ethans phone number anymore so I might not seem him again.

(October 14th 2025) I updated my English Essay

ClayT Gaming 2024 English 2025

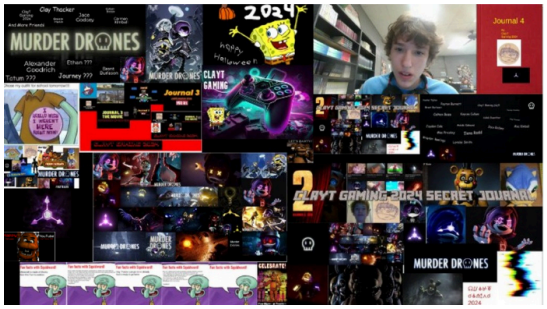
I came out of my house and got into my car to pick up an Ominous Hitchhiker at Night. So I had Started Driving to the place I was going to pick him up but while on the way there. My car broke down on a Rural road in Malden Missouri and a wisp of smoke came out of the engine then danced in the wind and then the engine in the car would not start again and I knew it was broken. So the first thing I did was Look On YouTube for a video on How to fix it. But all the YouTube videos info did was make things a lot worse. So I called to get my car fixed and then I found out it was going to cost me one thousand dollars to get it fixed. So to get the money I needed I went and edited YouTube videos for people till I got all the money to pay for them to fix the car that was trash. After that the car wouldn't start. It was unfixable. I pugnacious Argued with them about how it didn't work and then I tried to think of how I was going to buy another car. I had a slough to pick up the Hitchhiker so far. So far the whole time had gone brusquely every time I tried to fix it but I didn't want to give up. So I decided to buy another car and then I went and started editing more videos for people until I got enough money and went to buy the car so I could pick up the hitchhiker. When I bought the car and Mollified my Anger all my stress Subsided so I went to pick the hitchhiker up. When I got there the hitchhiker was my friend Ethan who was a YouTuber with the username Goat63863 so I picked him up and dropped him off at the place where he wanted to go and then after everything that Happened I was done working for the day so I went back to my house and played Minecraft online on my Nintendo Switch connected to my TV because I was done working for the day. But while playing Minecraft an Unknown User showed up but then the User got off quickly like he was Sonic The Hedgehog but when he got off he said look outside in the chat and I went and looked outside and my new car had disappeared and my old one was back in the spot where I parked the car but I ignored it and started playing Five Nights At Freddy´s 4 Halloween edition instead and went back inside the house because the Day was as Eventful as the Five Nights At Freddy's video games Lore and I was too tired to care about the new car disappearing out of thin air so I ignored it and played Five Nights At Freddy´s 4 halloween edition on my Nintendo Switch and then a shadow in the shape Of the Freddy Fazbear Animatronic was outside my Window in Real Life at Five Fifty Four right before the power went out and then I heard Freddy's Music box from the games but then it turned Six AM and I got Jumpscared by Nightmare Freddy Fazbear because I forgot to shine the flashlight at the freddles to keep Nightmare Freddy away in the Five Nights at Freddys 4 Halloween edition game and then the lights came back on and I stopped hearing the music box but I kept playing Five Nights at Freddy's 4 Halloween Edition for the rest of the time.

(October 14th 2025) I also got my DSI back and I played Plants VS Zombies and Listened to music while playing on my trampoline and I also have been thinking about how CTG24 MCU Arc story is going to be The Character MCU CTG24 Name is CTG24 but in the story the device he got from the sidewalk made by “Iron Man” is not going to be by Iron Man because it is going to be revealed in the last 3 episodes of Season 1 but in the story a new style for the device is used

there will be a gray glove, an String to imitate a wire, an inside of a slap Bracelet and one other thing. But there is more the thing is going to start with Spider Man style web shooters but instead of webs its red energy looking stuff and tasers where the same move but where you use 2 fingers instead of 3 plus it is going to get a shield Laser Gun and then random types of attacks and it is going to be important for getting characters back to their Dimension in ERROR War Saga the last part also the energy color is something to pay attention too its going to start off red then red and tiny bit of blue energy then half red half blue and three fourths blue and one fourths red then fully Blue it is because that MCU Arc CTG24 is using it and it had Errors Red energy trapped inside and turn blue because of MCU CTG24 using it the blue energy is his own energy so thats part of the lore and the blue energy will get stronger and ERROR War Saga will have CTG24 MCU and CTG24 Glitched Pages sharing the energy in the third part which is Journal 3 The Universal War Ends which is the main part of the movie where A Ultra ERROR VS Ultra blue Energy Powered CTG24 and MCU CTG24 in the end but UnKnOwN EnTiTy from Canclled OG Journal 3 will help and in 2nd part at beginning will show what happened to the Canclled versions Dimention so its going to have a really good story plus I put that Marvel can use the MCU CTG24 as Cannon in MCU Movies timeline so I hope they see it plus there is more news to come so I hope You Are Ready. Also new Wallpaper style

(October 15th 2025) So I played Plants Vs Zombies yesterday on my DSI and finally unlocked the shop thing so I am enjoying the game a lot also I made a new design for a Character going to be used in Journal 3 but I am still thinking of a name to use I have not decided on the name for the character but I have 2 drawings one on here and another with the mask but the white in the mask is replaced with blue but I am still trying to make a whole entire story for the shows Journal 3 CTG24 MCU Arc is easier to make than Glitched Pages but I am going to find a way to put this character in both but them being different variants of the same character but the character is going to be a villain in CTG24 MCU Arc if I can put him into the show and the ERROR War Saga will have this character as a villain in the movie too so I have a plan to add this character into both shows and the movies but CTG24 MCU Arc he will be a villain but the Glitched Pages show will have a 2nd version of the character thats not a villain in it so I am still working on the shows also I did something else for the ERROR War Saga movies there is going to be 2 different versions of all three movies there is going to be one so Marvel can use it and one for mainly the Glitched Pages version the Marvel version will only use characters from my own channel that I made myself while Glitched

Pages version will have all the characters in Glitched Pages but I am going to use 2 version so Marvel can use the ERROR War Saga if they want to so I am thinking about more things and I am making more characters for Journal 3 so far I have MCU CTG24, CTG24, ERROR, and The Unamed character I talked about today so I am going to make more character for the Journal 3 series but also if you have an idea for a name to use for the new Unamed character comment it on this book.



Also In Fortnite they are adding Poppy Playtime and one of the skins going to be added is Huggy Wuggie from the first game they are also adding Scooby doo into the game which is part of the main event and sadly there is not going to be Five Nights at Freddys Collab yet but I hope that FNAF and Fortnite collab is going to happen at one point in the future. Also Cutting room floor

Goomba Low-Model

An unused low-polygon model for a Goomba. The game originally switched out the normal model with this one at a certain distance from the camera, but the low draw distance for objects eventually rendered this useless. This functionality was still intact in the E3 demo, which can be observed at this timestamp, before the Goombas activate. Although coins still do use a low-model when viewed from a distance, this may be because there are often many on-screen at once.

Unused Star Select Screen

An unused, rather simple Bowser-themed variant for the star select screen. Used in the unused map select.

Battle Fort Painting

This graphic appears in the third office, but it's placed behind the office image (which has most black parts transparent, allowing this graphic to be seen through it). The silhouette is also unseen due to it being placed on top of a black background.

Just like the Springtrap graphic above, this graphic is used, but the silhouette is unseen due to it being placed on a black background.

YouTuber Demo Leftover

A leftover image from the demo version that Scott Cawthon sent to YouTubers. This would appear in the middle of the main menu if there was an attempt to start a Night with more than 2,000 points.

Reused *FNAF World* Save Data

When you trigger the secret with Old Man Consequences where you end up in the "Fourth Layer" area from *FNAF World*, the game registers a save file called "info" and adds in a value called "beatgame4=1". This save file has no purpose in *Ultimate Custom Night*, but *FNAF World* can read it, causing a trophy of Freddy to appear on the file select screen. The reason this happens is because the frame used for this Easter egg is recycled in this game, and the code to have the game execute the data was left intact.

Debug Mode

In the game, there exists a normally disabled counter that would enable a Debug Mode and when enabled, would grant the player access to several debug keyboard shortcuts, such as those that skip the night or drain the power entirely.

Anniversary Edition

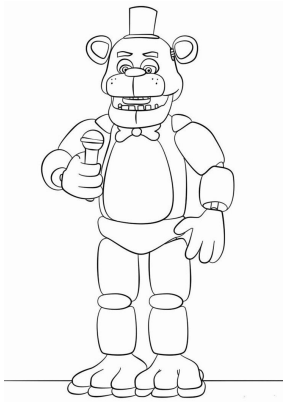
Original	25th Anniversary Edition

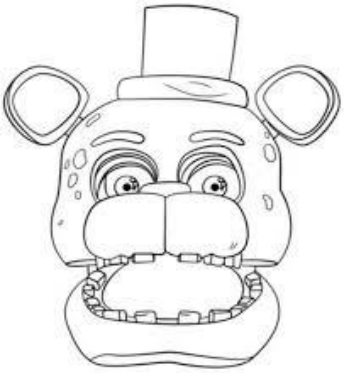
In the 25th Anniversary Edition for Virtual Console, bundled with specially-marked Japanese and Australian Wii consoles, the question mark on the ? Block was changed to "25".

Five Nights at Freddys

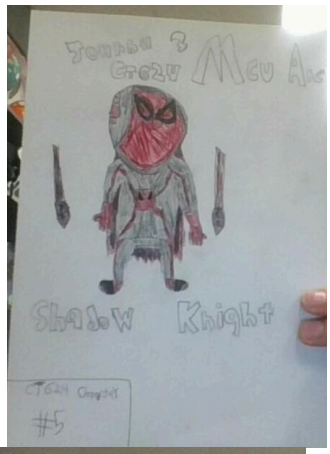
Also I have finally played Baldi's Basics for the first time and It is okay its not as fun as I thought it was but I am still ready to go home also FNAF DRAWINGS

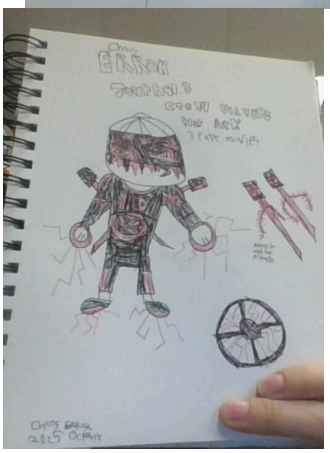
I am ready to go home and Play on The Trampoline listening to music on my DSI when I get home it is Art or English today right now and next hour I got Math then I got Bus hour or I just get on the Bus and then get home aka Home hour and I and I am 100 percent ready right now





so I put this in the next update then I should have but my profile picture is now Murder Drones again. I really enjoyed the show here is the link to a playlist for the show https://www.youtube.com/playlist?list=PLHovnlOusNLiJz3sm0d5i2Evwa2LDLdrg so I hope you enjoy the show but you might want to copy and paste this on your phone or computer cause its blocked here mostly think its because of comments and PG-13 rating.





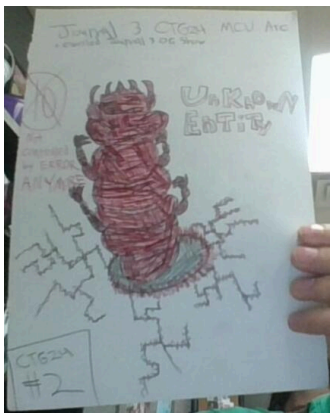
(October 16th 2025) I updated the Unnamed Character also I named him The Shadow night here is the image also I am deciding that there is going to be two variants of the character one thats a villain A.K.A Glitched Pages and then the hero in Journal 3 CTG24 MCU Arc and surprise he is going to be revealed to be the MCU CTG24 from the Future in the show at one point plus I am thinking on adding him into the ERROR War Saga with both versions so that there can be a scene where its the character fighting himself from another dimension but I am also making even more characters right now I also will update later today plus there is more designs I want to add later that I have already made so get ready for them also got another design for ERROR Here it is also this design is going to be for the Journal 3 Error War Saga hope you like the design also there is more than that I wrote the rest of today before this 1st hour but I was thinking about the origin of the Shadow Knight and I had an idea for the story he will Be MCU CTG24 from the future but in the origin I will put in that he goes to Fortnite Dimension and uses part from Glitched Pages CTG24 Dimention to make a time machine and the character will use parts from Glitched Pages CTG24 dimension and Fortnite and combine them to make a Time Machine to fix what happened in the ERROR War Saga from is Timeline but helps CTG24 and MCU CTG24 to stop ERROR from winning and stay in the new timeline thats what the story for Shadow Knight is going to be it is going to show him helping stop ERROR and what happened to his timeline but that what I think I should do for it to make this

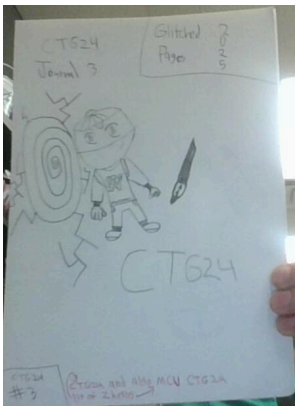
character being MCU CTG24 to make sense and the 3 Part movie event ERROR War Saga will not have Spongebob or Jibanyan they will be put back to their dimention and it will only use my characters the movie will have CTG24, Minecraft Clay, MCU CTG24, ERROR, OG UnKnOwN EnTiTy, and Shadow Knight they are the confirmed charcters for the movie there will be more if I make more characters for Journal 3 Franchise which is my own Characters, Movies, and shows I might make comics if I can figure out how to make a good one but there might be Flashback in ERROR War Saga I hope there will be so there will be a bigger story and there is going to more parts explained like where did the device from Journal 3 CTG24 MCU Arc come from well I will tell you it is from Shadow Knight to help with the fight against ERROR in the story the device has ERROR Energy inside it and it will turn blue because it turns into MCU CTG24 energy which is the same but blue thats why Shadow Knight has a Red Suit but he has Blue Energy instead of red but I am working on a story to put in for the entire Journal 3 Franchise but Shadow Knight is the Newest Character for CTG24 MCU Arc.

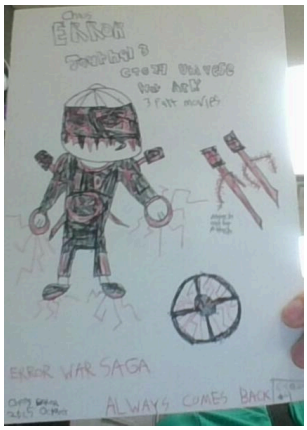
(October 17th 2025) English work

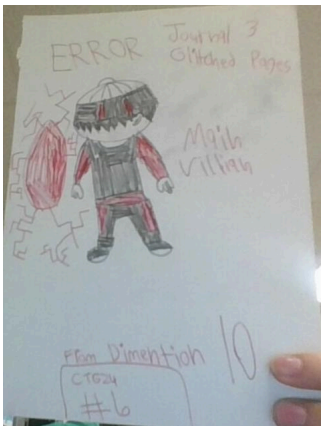
Yes because sometimes Technology malfunctions or has an Error which makes it erase all your Progress so sometimes its better to write than start typing also the Internet has lots of things that are not helpful for example ChatGPT does not always give you what you want if you said what does FNAF it will say Five Nights at Freddy instead of the definition of the game so that makes it have to write again and for Voice typing does not work good if you say Five Nights at Freddy's it will give you only Five Nights which get annoying so thats not helpful and makes it even harder so there are a lot of way technology is not always helpful and sometimes the device is the problem there could be low storage and not be able to download the file or your computer is slow and you try to go to one part and it keeps going past it and some video game consoles are the same way for DS its system is too simple for videos and tools and can only run Calculator and DSI Games and for Switch they can use tools but it takes forever to download because of low download speeds so that is proof people still need to write because Technology is not advanced enough all the time to do it.

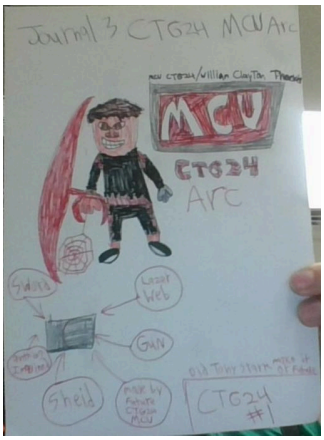
(October 17th 2025) I got finished with my english work today and I have been thinking about how some Journal 3 Designs are going to be used for the movies Journal 3 Error War Saga there will be posters of most characters and I have 6 of those characters the most detailed being UnKnOwN EnTiTy here are the posters

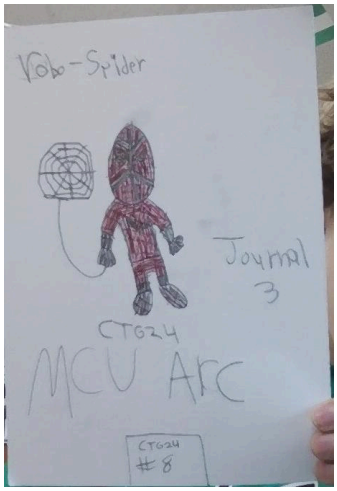












So those are the posters I made they are for three thing ERROR War Saga, CTG24 MCU Arc, and Glitched Pages which are all part of the Journal 3 Franchise so I am going to make more posters so there will be more characters

revealed later but for now all these characters are confirmed for ERROR War Saga that's now revealed but there is more that I will add either today or next week but I am working on making more episodes script type of things for the show I will say Glitched Pages CTG24 will show up in Episode 2 of MCU Arc but Shadow Knight is not going to show up till at least episode 4 so that is going to happen in that show so I think I might make some more characters for the show but I still got to think of what they will be for now I will update later. I just made 2 more posters but I am putting it with the other posters also there will only be one variant of Shadow Knight and it will be a hero one thing is that the 1st new poster shows that MCU CTG24 is Shadow Knight and in MCU Arc Future MCU CTG24 will come in episode 4 as Shadow Knight so that is my plan for the character so I hope you will like that also Robo Spider will be in episode 2 as MCU CTG24 but not being used again unless there is flashbacks in the show or ERROR War Saga movies so I am working on that also I am trying to think on how I am going to make more things and post them to YouTube because I don't have a device to make videos so thats why I am not making videos but there is a lot more characters to be revealed and I put that Marvel can use Journal 3 MCU Arc and ERROR War Saga on Disney plus in the video I am doing that because Marvel owns the MCU but also there is a bigger story that will be made for the movie also I have confirmed that my ERROR War Saga movie will have all the charcters I made posters of and Robo Spider suit will be used for a second time in the 2nd movie also the OG Journal 3 show that was canclled I said was was Non Cannon but it is just that the UnKnOwN EnTiTy will come from that dimention in MCU Arc so thats part of my story also I am making more characters whenever I can also I am thinking about how I am going to make three movies I have not even made a script or a story board or anything showing a story also I won't till I make the last 8 episode of Glitched Pages and season 1 of Journal 3 CTG24 MCU Arc they are what comes right before the movie and I am trying to make a story and everything so I can try to set up ERROR War Saga by Ending Season 1 of MCU Arc on the cliffhanger for ERROR War Saga also I am going to end Glitched Pages on a Cliffhanger for MCU Arc Season 1 last episode where both are there also I might put Minecraft Clay into the mix but till you see if I make a poster of him he is not confirmed yet also in the Movies there will be two designs for ERROR Flashbacks showing the original look and Chaos ERROR the new design with a poster so that also confirmed that there will be flashbacks in the movie showing events in Glitched Pages, MCU Arc, and also ERROR's backstory so I needed to get that on this so you will know also there will be a lot of new things in ERROR War Saga along with returning thing in the movies too one returning thing is the Robo Spider suit which will be in the second movie also I am put things from my past that happened in real life in it like MCU Arc having mentioned Alexander Goodrich a friend who was my friend my whole life and is only 2 days older than me also put Ethan in the Beginning of the end movie also I don't remember if I put Goat63863 his old YouTube Channel name in there also in the Future I am going to try to mention Carmen Kimball, Tatum, and Jackson in the Journal 3 Series but I also might mention Crystal in it who is Ethans girlfriend in there too because I am going to put names of my other friends in there too.

(October 21st 2025) So I am thinking on making more for my show MCU Arc well I have a second channel Robo Spider and I am going to use it for parts of episodes where I am filming it and post it then I edit it then post the one scene to the channel but I am posting one episode today so when I make a new episode I can just take it from that channel and put it in video with the rest of the clips for the show also I am am filming a few things at school I have one scene in the film Google Classroom that I recorded in film so I can download when I get home and then post to the Robo Spider Channel under the name MCC Behind the Scenes number 1 and then every time I make an edit or record the unedited version I will post it to Robo Spider and then I am going to use that clip later so I can put it in the MCU Arc Episode I am putting it in so I am doing 2 more class for the episode when I record the last 2 I will release an 4th video on Robo Spider with them combined with the title MCU Behind the Scenes number 4 and then I record the next part of the episode and not only clips I am also putting voice lines in the behind the scenes for Robo Spider channel but there is going to be a lot of videos and sounds for the behind the scenes. Also more than that I am going to use Robo Spider in MCU Arc where in one scene MCU CTG24 is going to use the robo spider suit also I might update later today but I am going to make a video for my Robo Spider Channel so get ready. Also here is my new favorite song MURDER DRONES - FIGHT TIL' I'M GOOD ENOUGH (ft. The … I am ready to go home but also I am saying I found a pen in the Library also they talked to us about some people bending the chairs I was listening and sitting by my Friend Braxtin Martin also I am thinking about putting I will fight till I'm good enough in my CTG24 MCU Arc as a fight scene with the video in the background at the start as a reference to the show I also am ready to make more for Glitch pages too but the 2nd episode might take a while because It will take all characters to their dimension including Spongebob, Patrick, Steve, and Sonic but I will say that Jibanyan will be a returning character through Glitched Pages and a part of ERROR War Saga but he will be the only other character in the show that will be from another show except for Marvel characters just incase Marvel wants to use it but the third episode will still be centered about Minecraft Clay and CTG24 finding out he could use more help and he is not alone in the fight against ERROR but the third episode will have a part teasing CTG24 going to the MCU and seeing his MCU Counterpart (William ClayTon Thacker as actor A.K.A Myself) and getting help to find the stones but will be revealed to not be chaos emeralds but actually the power stones of all 8 main dimensions but it will show that it will be an important episode for the entire story of Journal 3 Series except for one character which is more important for my story "Shadow Knight" who is also MCU CTG24 who is from the future who will appear in MCU Arc First and then Glitched Pages in Episode 5 of 11 where the fight Against ERROR is getting closer and they have to work a lot faster to stop ERROR but there more CTG24 CounterParts along with counterparts of other characters the only character who won't get a counterpart is ERROR who is only created from escaping and destroying his dimension and gaining his energy and need to destroy his dimension which is explained in Beggining of the End movie from a few months ago but More Journal 3 stuff is coming also 2 more things one spider man will be referenced a lot and two I always wanted to be an actor but in ERROR War Saga me acting 2 characters I will put the two voicelines over each other and then put a part will the drawings using the head as Robo Spider

as a character but not MCU CTG24 but another Universe but CTG24 from Earth-199999 A.K.A me will have his own energy where his energy as web shooter type thing will turn blue and giving it to CTG24 too so CTG24 and MCU CTG24 will fight ERROR in the third movie and the UnKnOwN EnTiTy who is not controlled anymore will help MCU CTG24 who freed him from ERRORs Control and that will be hard to animate also for Comments on one journal 3 episode put a comment if you want a scene with murder drones and CTG24 pretending to be a worker drone but also Using a device to have a solver but only having it from the device which gives him one ability just to get a power stone but if I do Liam Vickers and Glitch Entertainment will be credited for the characters in the credits but 2d and 3d both in the scene that will also explain why Shadow Knight is CTG24 from Earth-1999999 has a suit thats cartoon who is also live action when not wearing the mask but that is a part of the lore also every Variant of CTG24 will show up in ERROR War Saga so Minecraft Clay and other Variants will return in the movies.

(October 22 2025) It is the first hour and I did No Red Ink. I also have been thinking about making Robo Spider mainly for Behind the Scenes videos just to let you know. It is now 4th hour and I want to say Robo Spider has two videos now for behind the scenes of CTG24 MCU Arc and also in third hour Colton Booze fell asleep in class and I turned and found out he was asleep and I am going to post more videos to both of my channels and there is going to be a lot more for Robo Spider also right now I am listening to Fight Till I'm good enough a Murder Drones Music Video and trying to think Ideas for videos here is the link to Robo Spider channel https://www.youtube.com/@RoboSpider2024 so I hope you like the videos.

(October 23rd 2025) So It is now Thursday and I have been thinking about the cancelled Journal 3 OG show I am adding those books in the MCU Arc along with Shadow Knight (Future MCU CTG24) bringing from the other dimension but I also lost my DSI Again my Mom said to do something I forgot and I got in trouble so I don't have my DS anymore and I threw away my FNAF book for it also I have been thinking about making more things to add to Journal 2 well Journal 1 and Journal 2 are being added with Journal 4 (1st version) the one on this is the 2nd version also if I find OG Journal 5 I will add it too but I have not found it yet but all Journals is setting up the return of the character that started it all UnKnOwN EnTiTy so get ready for that also I am updating the book and adding it to YouTube later so It is also updated so get ready for new videos and also check out my Iron spider channel also I can only add 15 mins and under to Iron Spider but I can add any length video for my Main channel ClayT Gaming 2024 also I still like Murder Drones and on October 30th I am Making a video title 1 year of ClayT Gaming 2024 since at that point I would have been a YouTuber for 1 year and I will try to make it 40 mins to an hour but it might be 15 mins depending on how much time I have to do it also I am watching Star Wars six in Movie class and I am ready to watch it I have played every lego game of it on DSI and Xbox 360 and I have been having fun with it also you know Robo Spider character well he is going to be in ERROR War Saga along with more new characters and for other franchise characters there is only 1 Jibanyan also I will now be explaining the movie so we left off where they sav Han Solo in the movie and Yoda dies so that is were we left off I am waiting to go home and make more YouTube videos and yesterday I posted a scene wher CTG24 from

Earth-199987 talks to ERROR well that is going to be in a flashback but it would be in episode 1 but I forgot about it also my Favorite characters from Star Wars are Luke Skywalker and Darth Vader but In Journal 3 stuff MCU Arc is being made and Glitch Pages too but there is more to MCU Arc than you think there is going to be things from the Cancelled OG Journal 3 show that are being reused in Journal 3 MCU Arc because one reason they are both live action combined with Cartoon style Items and Characters added in so I thought how about the Journals from the OG one it will be a good idea so I am going to get them to add to the show just like UnKnOwN EnTiTy and now the story is having things added to the story so get ready for a new story that will start of ERROR War Saga a 3 part movie event that has ERROR vs CTG24 and MCU CTG24 thats the main thing for the movies story.

(October 24th 2025) So Yesterday I thought that I was not going to the Bernie Park but in Last hour in Math I got a paper so I am going to the Bernie Park but I asked if Brett was coming he did not get a paper so he is not going but I think Braxtin Martin is coming he got a paper in Film class so I am ready to go but also I am thinking about making more Journal 3 videos for new episodes but I am still trying to make a story for the Glitched Pages Episode 3 or Minecraft Clay but I can't think of anything to do but I am glad we are going to Bernie Missouri Park because we are not going to have school I don't know what is going to happen Wednesday mainly because that I have not dreamed the future at least I don't think I have also thats not a joke I sometimes have dreams that later actually happen but every time its when I am remembering something or making an important memory also when I am thinking Haven't I dreamt this before but most of the time its when I am thinking of Alexander I have not seen him since March 7th 2025 on his birthday and two days before my birthday and I miss seeing him also when I finish all the scenes for my MCU Arc Episode 2 I will look in the Background and see who is in the background and put their names in the credits some names include Alexander Goodrich, Ethan YouTuber, Carmen Kimball, Jace Godcey, Braxton Martin, Jacoby Hensly, Jaden Cole, Colten Booze, Malachi Edmond, Ethan Simonson, Kaleb Gunther, Braydon Rawlings, Alec Kimball, Hunter Tipton, Ashlyn Cecil, Tatum, Jackson, Journey Crystal also known as Ethan Girlfriend and a lot of other people also the Editing might not be good because I am not good at editing well I am good at editing live action then Animation so thats going to make it harder and make it longer to make the whole episode mainly got 2 school scenes and Hacking the Device recorded and put on my Robo Spider channel also known as my Behind the Scenes channel for posting scenes before I make the whole episode but I am trying to make a halloween episode for episode 3 but it might come out while its not even halloween but it might come out before Episode 2 just because its a Halloween episode so Just wanted to let you know but another thing is that I am going to make a lot more scenes but when I combine all the videos into one episode I will add voicelines before release of the episode but I can not think of anything else to say but I am going to make a lot of other videos also might have some deleted scenes for a video on my main channel so if I do that might have some things to add but so far there is only one deleted scene and its from Glitched Pages and its posted on my main channel but it might be a while till new episodes come out also I have been listening to Halloween at Freddys and they made an animation have the moon as Pennywise and had Toy Freddy as Freddy Kruger from Nightmare

on elm street also I am starting to think of Ideas for making my own music video for Journal 3 CTG24 MCU Arc and also having Glitched pages CTG24 in the music video too but there is one problem I don't know how I am going to make the music I don't know where to make the Music theme but I am good at singing songs I sing a lot of times mostly Into the Pit FNAF and also Halloween at Freddys too but I am still trying to get better at making music I want it to sound like Fight Till I'm good enough the new Murder Drones song where they use the animation and sound effects with the Music so I am going to go online and get sound effects for the music video and then make the song and then after the song I am going to make the animation and I will but the lyrics on the top of the screen so you can read it and the clideo text don't block it also the song will have to do with CTG24 MCU as the main character of the music video where he wants be a hero but also wants to live a normal life at the same time and then switching to CTG24 where it shows what is happening in Glitched Pages and what happens before Glitched Pages fully starts but the lyrics with go along with some of that one scene of the music video where it has Error singing in that part just like Fight till your good enough does with CYN but I am going to have it show CTG24 Fighting ERROR before switching back the MCU CTG24 where it continues with what was happening at the beginning but I am going to have to learn to make music before I start making the music video and then make the animations look like the show but better also the lore of the show and movies is there remember OG Cancelled Journal 3 show is not cannon but there is a bigger story and the story will continue to be made even more not all the story is made but it is being made also there might be a lot of hints in the music video and new episodes that foreshadow the ERROR War Saga story and one thing is that I am making more concept art for the show also ERROR War Saga will have Dimension 10 and the sky will be red there is gray rocks with red crystal growing from them and ERROR will be the main villian of all three movies also Shadow Knight is going to help them but will stay in the timeline afterwards also I have been watching videos on Spider Man Brand New Day and one leak sounds like it will be a good scene it will have two planets coming at each other so it is teasing Avengers Doomsday and Avengers Secret Wars I hope that the end credit scene is true it sounds like it will be a really good part of the movie also I have said this a lot Marvel can decide if Journal 3 CTG24 MCU Arc is Cannon they can say it is and they can say it is not but I made the characters and they can use them as Cannon in the MCU its their choice.

(October 28th 2025) So it is Tuesday it is going to rain tomorrow so the moves the bernie park to Monday also yesterday I made more YouTube videos I got on YouTube and watched SMG4 WOTFI 2025 that came out the day I watched it then after that the movie was really good also I used the Song in it and made a music video for Journal 3 ERROR War Saga that is not what its going to be at the end then I made a video where it has both Movie song and my Music Video to compare them also I used Stop motion for the music video but I also made a video titles the movie was epic and It showed a few scenes then me talking about it in between the scenes saying why I liked it and there was a Cliff Hanger at the end of the movie that is going to be continued in the show I think but I hope that the show is not going to end it was one of the first Glitch Entertainment shows also I watched Dan Dingles AI video yesterday and the watched a video about someone making a Plants VS Zombies Horror game but you can download it when I

downloaded it it would not start and would make the computer lag until I deleted it also I finally put Shadow Knight in something on my YouTube channel it the video was Journal 3 ERROR War Saga Music video I might make more using the same song but change it by added more characters and making the scenes of attacks a lot better Also I am using an website so the background is not on the video for the character but I also have been thinking about making more characters in the Glitched Pages show I think that I might make more than 10 episodes if I continue making them I still have not got any ideas for episode 3 but I am thinking of making more episodes also SMG4 I have been watching for a very long time and the animations and sound keeps getting better SMG4 originally did not have a voice but now he does the Animation has gotten better since making the original but then they made the new 2025 episode and brought back past episode like Who let the Chomp out and Road trip episodes while also adding more like Minecraft Steve hero character and bringing back every WOTFI main villain character and they even brought SMG3 as a villain fighting the future SMG3 but I think that the show keeps getting better every day but I also watched IT the horror movie with PennyWise the clown yesterday It not scary its a FNAF level scary.

(October 29th 2025) So I watched SMG4 all night because my Mom was not home so I didn't sleep well I only slept for one hour then Got ready and came to school also I Joined Discord server for SMG4 so I have my own Server, Aimin Crib, Game Theorist, and SMG4 Summer something but nobody would join the voice servers but I am thinking about recording me talking on Discord and also I made a video where I made a scene a lot funnier I have to make it were it will show up here at school when I get home I am also thinking about asking Alec to Send Carmen my Discord link and say its for her and to also give it to my other friend Alexander Goodrich but I keep forgetting and then feel nervous to ask but I don't know if I will actually do it or not also I am going to post this book on YouTube later and make a trailer for it when I get home I will find the website upload the file and put the link to download it in the description of the Commercial type video also I kinda miss my friend Alexander I have not seen him since our Birthdays in 2024 but I also hope I will see him again I am also Going to try to contact him but I don't know If I will yet but mostly all I have done is watch SMG4 this week I am going to write more on this book later so I hope you like me Updating the book a lot

(October 31st 2025) I am making a halloween video and also making my Glitch Pages book here is it so far with first episodes updated

Chapter 1 The Start

Our story starts at a Dimension but not any Dimension but Earth-199987 CTG24 was living a normal life and then a portal opens and then he is pulled into the portal and transported to a small town under the sea called Bikini Bottom he looks around and tries to figure out what happened he goes and find a Pink Star fish. Hi where am I CTG24 Says the pink star fish responds with Who is I CTG24 asks the Sponge he was playing with Hi I am Spongebob this is Patrick nice to meet you but before they continue the sky starts glitching out then CTG24 has a

flash back to Earth-199987 where he saw the sky glitch and got pulled into the portal but three more portals opening Patrick was Transported to a Dimension called Minecraft, Spongebob was transported to Dimension ten, and CTG24 to Green Hills where a fourth portal opens and a red dragon called the UnKnOwN EnTiTy comes out then a blue fast hedgehog goes fast and defeats it but he then quickly got pulled into another portal The red dragon went back into the portal and another Variant of CTG24 comes out. I am ERROR and you need to stay out of my way unless you want to be destroyed. Then meanwhile Patrick in Minecraft saw Steve and panics Steve puts down a sign that says Don't worry I won't hurt you but then back to ERROR he explains how he destroyed his own Dimension on accident and lost his best friend and his life and it was his own fault so he goes to other Dimensions to destroy them and stop it from happening again but then ERROR says I hope you like Crafting and throws CTG24 into a portal then with Patrick and Steve portals open and they are pulled in Minecraft steve pulled into an Unknown Dimension and Patrick into Green Hills but CTG24 in Minecraft looks around saw someone ask for help. Hi I am Minecraft Clay whats your name and the episode Ends.

Chapter 2 Jibanyan

Jibanyan Wakes up in Springdale but something is off Nate and whispers are gone he goes looking for them and looks outside not a single person is there. The sky starts glitching out and then a portal opens and he is pulled in but he does not know where it is. (November 5th 2025) Today in History we were told to do a new work on Google Classroom but when we all got on there was nothing. It feels like a prank right now I wonder if it is also I am

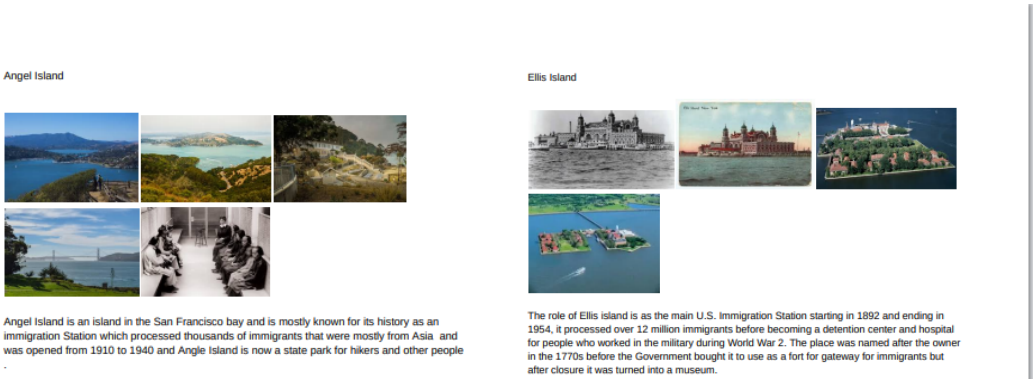
updating my Glitched Pages book right now. I also have more history work



Angel Island
Angel Island is an island in the San Francisco bay and is mostly known for its history as an immigration Station which processed thousands of immigrants that were mostly from Asia and was opened from 1910 to 1940 and Angle Island is now a state park for hikers and other people .
Ellis Island
The role of Ellis island is as the main U.S. Immigration Station starting in 1892 and ending in 1954, it processed over 12 million immigrants before becoming a detention center and hospital for people who worked in the military during World War 2. The place was named after the owner in the 1770s before the Government bought it to use as a fort for gateway for immigrants but after closure it was turned into a museum.

But I am also going to post the updated version of my Glitched pages right here

CTG24 goes to the next Dimension Earth-199999 to get the next stone and MCU CTG24 comes from the other room who are you and what are you doing here and a blue laser comes out from MCU CTG24’s glove and starts to Attack CTG24 from Earth-199987 “What are you doing here are you working with ERROR” and sees that it was not ERROR because CTG24 has normal eyes and lets him go “why are you here” CTG24 says that he needed a stone called the Ultra Stone the thing that has the power to defeat ERROR and now that MCU CTG24 found out CTG24 was not working with ERROR he decided to help him find the Stone and they had to defeat ERROR and in the Background Shadow Knight appeared and disappeared and they start to work together to get the Ultra Stone. But they had to go thousands of miles and the Stone was guarded by Chaos Ghost, a purple character that can change shapes but they had something that could help them, a power that is equally as powerful as Errors. So they start of by driving to the area but something is following them it was ERROR he starts shooting at the car until it launches and hits into a tree then ERROR disappears they did not get hurt but MCU CTG24 got a flashback to losing one of his gloves and shocking himself but CTG24 helps and they are continuing then MCU CTG24 Accidently opened a blue portal to their destination without knowing it was himself. They continue they start fighting the Chaos Ghost first by shooting the Chaos Ghost but it just went straight threw him but then MCU CTG24 Electrocutes it and it fades away they then get the Ultra Stone but them ERROR Shows up "I told you to stay out of my way and now I will kill both of you” then attacks CTG24 but MCU CTG24 forms a shield to save CTG24 but then after ERROR saw his power he says "I will be back” and leaves to another Dimension and CTG24 now has two of eight Stones so he thanks CTG24 and goes to the next Dimension and getting the next stone the SMG4 universe stone.

Chapter 5
SMG4 and CTG24

Now CTG24 comes out into the next dimension and needs to go to the old castle that is now abandoned while SMG4 and his friends are at the new castle. But then the Device says it has changed direction and was at the New SMG4 Castle which made things even worse for CTG24 to get the Meme Stone. But he needed to get it without SMG4 and the others knowing so CTG24 goes in and a few seconds later Mario shows up ”Hey you Got any SPAGETTI” and then runs away. CTG24 Confused ignored it because it didn't matter so he went further and looked for the Meme Stone and went through the vents then noticed it was in SMG4 box of Memes and CTG24 got down there and heard someone goes back up and mario comes in ¨NNIIIIITTTEEEENNNNDDDDOOO Memes¨ and goes to the computer so CTG24 had to make a new plan.

But there is a lot more things that I am trying to do like writing a lot more in this book and other things but in my new video Tribute to SMG4 I put scenes from episodes and had there audio at fifteen and the outro song audio at one hundred to make the video but I am writing more on these every day but I guess this is the update for now.

Also rest of History

Ellis Island and Angel Island

As immigrants came to America during the late 19th, early 20th century, they were required to “check in” through two places. Those places were strategically place on both the east and west sides of the United States. Not all immigrants were treated fairly as the entered “the land of the free.”

You are going to create a Google Doc in which you copy and paste pictures, along with writing your own description of what an immigrant would go through as they entered America through both Ellis Island and Angel Island.

You should have 5 pictures for each Island. Make sure they show some of the processes immigrants went through at each. See my example below and make sure yours is laid out like my example. Google is a great way to start your research for pictures. I also found some on Pinterest. You should be able to right click, click copy, and paste them right into the document from Google.

Example Google Doc:

Name
Date

Ellis Island

The first stop for some immigrants in the United States was Ellis Island. **Here I would also tell where it was built and why.

**The next pictures I would add would be the process immigrants went through or some pictures of them at Ellis Island with descriptions of what they were doing.

Angel Island

**Do the same thing for Angel Island.

Well now I have posted all of my history work so this part will be released in the next update not today with the rest of todays.
